

Explore Your Options: A World of Opportunity Awaits!

Graduation is a launching pad, not a one-way street to college. There are amazing career paths waiting to be explored, and college isn't the only route to success!

Ready to dive in? Here are some exciting options to consider:

- **Skilled Trades:** Become a builder, electrician, plumber, or welder! These in-demand fields offer competitive salaries, opportunities for advancement, and the satisfaction of working with your hands.
- **Vocational Careers:** Pursue a technical program in fields like healthcare, information technology, or cosmetology. Gain valuable skills and enter the workforce quickly.
- **Military Service:** Consider the structure, discipline, and unique experiences the military offers. You'll develop valuable skills and gain access to educational benefits.
- **Paraprofessional Opportunities:** Work in healthcare, education, or other fields as a paraprofessional, learning alongside experienced professionals and potentially pursuing further certifications later.

Do your research! Use the [Occupational Outlook Handbook](#) to explore careers by salary, education requirements, and growth potential.

But don't stop there! Explore ALL your options, including college.

Finally, consider your passions! This [video](#) explores how your interests can connect to careers (ignore the sales pitch at the end). Completing an interest profiler can also be helpful. It's time well spent to understand your strengths and find a path that excites YOU.
