WEEK OF THE BEAST LORDS

PAT

21:18 so, how's RE8 Village? So, who's the common threat? Werewolves and ghouls, huh?

- 23:15 RE8 is really good. But what pat finds more interesting is that we're going straight X-men now.

- 26:10 We're going to clown shoes DMC zany stuff now.
- 27:42 but does all this zany stuff work? Yes. And they're hinting they're continuing in this direction
- 28:05 ethan as someone not competent with terrible one liners
- - 30:17 Beating up ethan super hard
- 32:06 The game's structure is super weird because it's structured like dark souls 1
- 34:37 pat compares it more to action horror rather than survival horror. The gothic horror aesthetic.
- 36:20 plays like an RE7 sequel mixed with RE4, and this game is so close to RE4 he feels bad for the people remaking RE4
- 38:04 RE4 getting screwed up several times in a row, the hookman demo making a return in RE7. Making the RE4 we never got.
- 41:19 time for biomagic. It's still science.
- 42:45 its the middle of a trilogy.
- 43:19 played through it on PS5 and PC, PS5 version seems slightly better. All versions seem solid.
- 43:51 pat wont talk about the story but really wants to
- 44:13 did you get enough Lady D?
- 46:13 all the boss fights are really good. And no new cast of characters that replace the old guard. Ethan feels like he's not the protagonist of his own story
- 48:16 only downside: First and second parts are open ended and sneaky while the later parts are more linear and practically a shooting gallery. As is always with resident evil.
- 49:13 having 2 lengths for total time: The in game time and the real time.
- 50:09 Boat areas in RE suck. And the first location is always the best. RE8 having the smallest drop in quality.
- 52:39 pat has no clue where they're going with this

- 53:04 Pat advises to watch the post credits scene and to NOT read the credits

54:35 go check out pat over at patstaresat, he'll be playing nier, disco elysium, and watching the final fantasy live letter

WOOLIE

55:08 woolie watched the godfather 2. It was good.

55:55 binged invincible. Hearing about it back in college from a friend.

- 56:55 Found it pretty good. And the constant memes. The story that can only exist in a post MCU world, stories losing impact the farther you get from their date of creation

- 1:01:08 animation is doing alright, not way of the house husband levels of moving still frames

- 1:02:34 voice cast is good.

- 1:02:50 is the story done? And pat getting the weirdest first impression of him and paige in the comic

1:04:13 woolie put a lot of time into returnal. Woolie really likes it. What if this was samus? Damn it.

- 1:05:14 the parasites and there being 2 types

- 1:05:57 opening everything corrupted

- 1:07:34 the hollow seeker, other weapons

- 1:09:37 the story being real space horror.

- 1:10:15 the dual sense is the best rumble woolie has ever had in a video game

- - 1:11:48 only piece of feedback he doesn't like is the red flash on gaining proficiency

- 1:12:24 This game is not finished - woolie, no saving, losing your run, and the 1.33 patch destroying your save file. Getting crashes.

- - 1:15:56 bringing up gungeon for the average length of a roguelike

- 1:17:30 getting to act 2, hating the enemies in act 2

- 1:18:15 every time you pick up a piece of new equipment, the object isn't tracked properly to her hand

- 1:19:35 maybe just do daily challenges instead of the main game, and pat hitting a wall in zone five

- 1:21:17 making a melee focused build

- 1:22:47 the price issue: there's just the six zones and the secret ending

- - 1:24:02 beating it takes two and seeing all the minigames hidden everywhere. Comparing to the content in return

- 1:27:11 because of how triple A it is, spending time looking at the environment the first time around and then skipping it due to its roguelike nature

- 1:28:15 there are too few room variants

- 1:30:09 diminishing returns on graphics, using monster hunter as an example. The thought of it looking twice as bad for more time on content

- 1:31:31 repetition in other games

- 1:32:50 rules when playing it, but the structure around it sucks. Pat would prefer each zone a third as long but each in a row, and the tunnel vs. constant branching paths

1:34:40 reached into the barrel and brought out kenju. Look at this not terry bogard. Its got stuff from ehrgeiz god bless the ring.

- 1:36:55 what year did this come out...?

- 1:37:21 it looks like a 3d artist's fantasy of a ps1 megaman legends style fighting game

1:38:57 weaponlord. The game far, far ahead of its time. Negative edge.

- 1:41: 31 going full tourney, no casuals here

- 1:43:24 you need extremes

1:43:52 that's get into fighting games over on woolieversus! Also continuing disco elysium. Pat saw woolie fail a visual calculus check.

- 1:45:06 the level of reload scumming. Letting you go to dead ends. "Yes, and?"

- 1:47:39 cool details with the special edition: kim's stats
- 1:48:53 content clicks and failing checks
- 1:53:06 the one save scum you have to do: See the pass and fail on karaoke, and cursed dice/continuing with failure
- 1:54:42 bumping shivers
- 1:59:14 the game remarking on the character not drinking if you dont drink
- 2:01:05 being able to see your sheet
- 2:02:37 cop points and if you want to keep kim liking you
- 2:03:34 from 9 to 11, what kim doesnt know wont hurt kim
- 2:05:33 pats one problem: The game's fast travel system breaks on day 4. And how to run
- 2:07:00 the game is super long

2:09:03 an increasing number of black fungus amongst covid recovery patients. And getting your shots

2:10:41 SPONSOR: DOORDASH

2:14:44 SPONSOR 2: HONEY

2:18:18 SPONSOR 3: HVMN

2:23:00 The doggo is making a big fuss

- 2:53:00 seeing vergil-like in MMOs before, but this looking more of a high quality approximation.

- 3:04:39 how about a next level ping system?

- 3:05:55 the idea of letting people be toxic

- 3:07:10 pat says "Why dont you start at the top with the management first?"

- 3:09:19 there's probably no punishment you could give a 12 year old to keep them from being toxic. But you can watch them melt down on the forums.

- - 3:10:22 that kid yelling at his mom for milk

- 3:11:41 woolie supports recording for people that are banned, and pat recalls the call of duty after death conversations

- 3:13:25 league's bottom ranking is tougher than above it because it is all smurfs

- 3:14:26 FFXIV being too moderated, but they force the 18+ rule

- 3:15:14 if you sign up for league or valorant, they should ask for an older sibling, and if the younger sibling gets banned, it sends a text to the older one

- 3:16:00 what if there was an invite only MMO? MMO social credit

- - 3:17:50 how far does that cascade up? MLMMO

- 3:19:10 pat would ban people for nothing
