Today and tomorrow, we're celebrating AFS Days! For over 75 years, the AFS-USA community has been creating a more just and peaceful world through the power of intercultural exchange. Volunteers, host families, exchange students, and alumni throughout the U.S. make these programs a reality by building connections across cultures.

If you'd like to become a volunteer, or host an exchange student for 12 weeks, a semester, or a year, please let me know! There are also opportunities for U.S. high school students to study abroad – and many of these students receive scholarships to help fund the experience. AFS exchange programs have an incredibly positive impact on the world. To learn more, you can visit afsusa.org!
