

1. As an Advisor I should be able to set "Report View Name" by clicking in textbox
2. As an advisor I should be able to type characters until its count of 255 and clicking outside of textbox, so in that case I will not see red border around textbox
2. As an Advisor I should be able to choose between "Firm Report" and "Client Report", by clicking in certain radio icon "Report Type", so in that case I will see Report View viewcontext changed accordingly
3. As an Advisor I should be able to choose between CSV / PDF/ XLS by clicking in radio icon Format so in that case I can set Report View Format accordingly
4. As a Firm Manager I should be able to choose between Landscape/Portrait by clicking in radio icon Orientation, so in that case if Report View Format was set to PDF, I can see Orientation component set accordingly
