## Introduction

Included in the following are the snapshots of the draft proposals for the IGF 2025 Dynamic Coalition sessions. The document includes descriptions of one main session and four workshops. The workshops correspond to webinars being held by the DC Coordination Group and members of the Dynamic Coalitions in preparation for IGF 2025. The content of the workshops is meant to be complementary to the webinars and consistent with work ongoing in the DCs.

This document was developed in a bottom-up manner with an invitation to all DCCG members to contribute ideas, text, and editing. The document was open for a month for development, and went through a brief last call before being given to the IGF Secretariat for MAG distribution.

[The document remains open for comment.](#) The next steps include designating speakers, moderators, and rapporteurs as well as nailing down the agenda; this work is ongoing.

## Main Session: DCs in service of Internet Governance: Success stories from the past and for the future of the IGF

Wednesday, June 25 - 9:00 - 10:15 AM

### Associated IGF Sub-theme(s)

Digital Trust and Resilience, Sustainable and Responsible Innovation, Universal Access and Digital Rights, Digital Co-operation

## Short Description (400 words max.)

Since their inception, Dynamic Coalitions (DCs) have played a vital role within the IGF process, serving as engines of innovation, dialogue, and community-driven research on some of the most pressing issues in Internet governance. Their intersessional work, from accessibility to cybersecurity, online safety and digital financial inclusion, reflects the spirit of the IGF's bottom-up, multistakeholder model. This session celebrates the achievements of DCs while asking: what's next?

*The session invites a forward-looking conversation on how the broader Internet governance community can benefit from the outreach and visibility, relevance, influence, and outcomes of DCs in alignment with the priorities of the Global Digital Compact. As "living labs" for multistakeholder collaboration, DCs are uniquely positioned to show how open, bottom-up governance can translate values into action.*

*Although DCs enjoy their independence, their respective work has relevance and meaning for their community and beyond in the whole IGF ecosystem. This is evidenced by four webinars held by the DCs' community each with a high number of participants from the IGF community (between 50 - 100 each) which have resulted in four workshops to be held at the IGF 2025 in Norway.*

*The session will demonstrate the interrelatedness of the diverse Dynamic Coalitions' work and their engagement with and contributions to the GDC, the WSIS +20 themes and objectives and the SDGs by providing a coherent topical flow along the following four themes as addressed beforehand:*

- 1. AI and rapidly advancing and evolving technologies, like the Metaverse, and Web 4.0**
- 2. Safety and Security? Learning the hard way. Cybersecurity and Safety lessons for the 21st century**
- 3. Capacity Building as a fundamental human right and requirement**
- 4. Future of Multistakeholder Governance**

## Policy Questions

*What is necessary to strengthen the impact of this important intersessional work? In this session the following issues shall be addressed by the speakers:*

- What is the history of DCs and how are they aligned with global digital policy agendas  
How can DCs best provide guidance, recommendations, and illustrate best practices to the world and ensure that the work and the IGF itself remains as inclusive as possible?*
- How to balance between bottom up and top down?*
- What kind of formal mechanisms should support the recognition of DC outputs as part of official IGF outputs?*

- *What kind of responsibility may DCs have to connect their work to policy and governance efforts beyond the IGF ecosystem?*
- How have and could DCs respond to the challenges” experienced throughout the years, e.g. (i) How to sustain volunteer-driven initiatives; (ii) How to improve inclusivity and regional representation; (iii) How to measure DCs’ impact and policy uptake (given that above we are discussing “formal mechanisms to support the recognition of DC outputs); (iv) What tools could be identified and adopted to improve collaboration.

## Session Agenda and Structure

Setting the Scene by the moderators (5 min)

Historical overview on DCs their foundation and achievements (3 min. Markus)

DCs’ current role in the IGF ecosystem (2 min Anriette)

Cluster 1: Summary from the workshop Laura BeCALL, DC Journalism + references from DCs + questions from the floor (15 min)

Cluster 2: Summary from the workshop + references from DCs + questions from the floor (15 min)

Cluster 3: Summary from the workshop Dr. Muhammad Shabbir, DCAD+ references from DCs + questions from the floor (15 min)

What’s next? Outlook on the Future of Multistakeholder Governance based on Cluster 4 (15 min)

Wrap-up: Messages from DCs to the IGF community (5 min)

## To Do for DCs taking part in the main session

1. Identify a speaker from each cluster workshop to give a short summary report
2. Identify DCs that shall give a short input from the floor to the respective cluster and name a representative that will be placed in the first row of the auditorium provided with a mic when its their turn to speak. Please, avoid duplications, i.e. a DC should only be referred to in **one** of the clusters; you may select from the list below or add further outcomes having in mind the time constraints set by the agenda.

1) Outputs transferred to a new document, see:

<https://docs.google.com/document/d/1IsQqjJTbu26RCnkkTCiFIDrmiafGO2i5F8we6DG2IWg/edit?tab=t.0>

*Please fill in your DCs outputs and link them to the WSIS Action Lines in the new Google.doc*

2) A debate on DCs in the service of the IGF and the larger communities in the governance environment of the future.

This could be structured along the lines as presented above.

## Messages

### Participating DCs

- DC-Journalism
- DC-Digital Financial Inclusion
- IS3C
- DCAD
- DC CRIDE (former DC COS)
- DC IUI
- DC SIG
- DC ET (Emerging Technologies)
- DC - Digital Economy

### Organizers

- June Parris, DDHT
- Judith Hellerstein, DCAD Co-Coordinator
- Jutta Croll, DC CRIDE (former DC COS)
- Wout de Natris - van der Borght (IS3C)

### Speakers et al

We should split this in two, a) reports/showcasing

My suggestion is to look at the list of expected DC reports and studies made this spring ([https://docs.google.com/document/d/1GmmpYjBOHZmwLLOkO6j7QbDOa1\\_2U7\\_NurMJgJk7nyM/edit?usp=sharing](https://docs.google.com/document/d/1GmmpYjBOHZmwLLOkO6j7QbDOa1_2U7_NurMJgJk7nyM/edit?usp=sharing)) and invite/select presenters from those who launch their report at the IGF. This is separate from processes.

### Onsite Panelists

- Dr. Muhammad Shabbir (DCAD) TBD
- Ayden Férdeline (DC-DFI) or Briana Marbury (DC-DFI)

- Elif Kiesow Cortez (IS3C - recommendations on post quantum encryption)

#### Online Panelists

- James Kunle Olorundare, Nigerian School on IG
- 

#### Moderator

- Judith Hellerstein, DCADtbd

#### Remote Moderator

- 

#### Rapporteur

- TbdJune Parris

#### b) future of DCs.

#### Onsite Panelists

- TBD
- 
- Elif Cortez Kiesow (IS3C)

#### Online Panelists

- TBD

#### Moderator

- tbd

#### Remote Moderator

- TBD

Rapporteur

- Tbd
