The College of Agriculture and Natural Resources (AGNR) as a business entity (Extension Service and AGNR Research) and recipient of federal financial assistance delivers educational programming and leading research. Partnerships formed within our local communities, stakeholder involvement, and disseminating vital information plays a fundamental role in carrying out this integrated approach. As an organization who partners with federal, state, and local governments, we are required to collect anonymous demographic information on all individuals who participate in any of our programs and or activities. The purpose of collecting anonymous demographic data serves various purposes such as, but not limited to, (1) ensuring our programs are delivered in a nondiscriminatory way, (2) solely for planning purposes to deliver programs like the one you're invested in today, (3) isolates the amount of funding we acquire to deliver programs to individuals within our communities and beyond Maryland State parameters, and (4) to ensure we are serving all individuals equitably and reaching populations which are underserved, underrepresented, and socially disadvantaged. As this form is voluntary, we hope you take a moment to provide your demographics and help us measure the effectiveness of our inclusive outreach efforts. The information you provide will be kept confidential and for the sole purposes of reporting program attendance and does not require any personal identifiers. If you wish to not provide such anonymous information, it does not affect your ability to participate in this or any other University of Maryland Extension or Maryland Agricultural Experiment Station research program or activity.
