Non-Public Transportation Request Form

Use this form if you would like transportation to/from your home address and a Non-Public School.

REQUESTS MUST BE SUBMITTED ANNUALLY BY: APRIL 1ST

It is requested that the following student(s) be transported to a non-public school(s) as indicated:

| Child's Name | Sex (M/F) | Date of Birth | Grade | Name of Non-Public School | Busing Request | |
|--------------|-----------|---------------|-------|---------------------------|----------------|----|
| | | | | | AM | PM |
| | | | | | | |
| | | | | | | |
| | | | | | | |
| | | | | | | |

I, _____ (Parent/Guardian Name)

Residing at _____
Street Address

_____ City _____ State _____ Zip

_____ Mailing Address (If different from above)

Home Telephone: _____ **Work Telephone:** _____

hereby request transportation for my child(ren) residing with me, whose name(s) are listed above, to and from the school(s) named above during the school year 20____-20____.

Residency Statement:

I hereby certify that I am a resident of Shenendehowa Central School District and it is my intention that all the students named above will be enrolled at the school(s) for the school year beginning July 1, 20____. Furthermore, I have been a resident of the school district since:

Date of Residency: _____ School Previously Attended: _____
Month Day Year

****Please read guidelines on page two of this form before signing below.****

Signature of Parent/Guardian: _____ Date: _____

OFFICE USE ONLY:
Mileage from student's home to Non-Public School: _____ Over 15 Miles: Late Request:
Notes: _____

Guidelines for Transportation to Non-Public Schools

Under State Education Law, the Board of Education is required to provide transportation for resident pupils who attend non-public schools. The provision of this transportation is broken into two categories – students residing under fifteen (15) miles from the school attended and students residing over fifteen (15) miles from the school attended.

If the distance from home address to the Non-Public School you are applying to is:

Under 15 Miles:

Transportation from neighborhood bus stops is provided to non-public schools when the distance from the center of the pupil's driveway to the drop-off point at the school is fifteen miles (15) or less. The distance is measured by the nearest available publicly maintained route. The parent is responsible for transportation of the pupil to/from the designated pick-up point.

Over 15 Miles:

Transportation is provided from central pick-up points when the approved school is over fifteen (15) miles from the student's residence (measured as above). An approved school is one attended by students living within fifteen (15) miles of the school.

Each year the director of transportation will establish centralized pick-up points based on the requests filed for busing by the parent's (guardian's) of non-public students by the April 1 deadline. The district is not responsible for providing transportation from home to or from the pick-up point. However, a district may provide school bus transportation to a student if the residence of the student is located on an established route for the transportation of students to the centralized pick-up point, provided such transportation does not result in additional costs to the district.

A student, who lives more than fifteen (15) miles from the non-public school he or she attends, and who is receiving transportation between that school and a central pick-up and drop-off point, may disembark from the bus at an established bus stop other than the central drop-off point. In that case, the student's parent (guardian) must submit a signed request identifying the bus stop at which the student is to disembark. Moreover, an adult living within .2 miles of the bus stop must be designated as being responsible for the student once he/she leaves the bus. A new bus stop may not be established to accommodate a request pursuant to this regulation. This regulation does not authorize a student to transfer to a different bus, or to use any bus other than that which runs between the school the student attends and the central pick-up or drop-off point.

Bus routes to non-public schools will be consolidated insofar as practical. In scheduling pick-up and delivery times, priority will be given to those non-public schools with the greatest number of students enrolled from within the Shenendehowa Central School District boundaries.

Application for Busing for Transportation

All reasonable means shall continue to be employed to notify district residents and, in particular, parents of children currently attending private and parochial schools of the relevant deadlines for filing of an application for transportation. April 1 is the deadline for non-public school students receiving transportation and who desire to continue for the next school year. The April deadline applies to students living within the district who may be considering non-public attendance for the following school year. An application should be filed, even if the parent (guardian) has not made a final decision. The deadline for requests for transportation from new residents of the district is thirty (30) days after establishing residence in the district. The school district continues to permit parents of non-public school children to submit transportation requests for more than one (1) school by the April 1 deadline and/or permit parents to transfer the original request by the April 1 deadline. However, all requests must be finalized no later than May 15 of each school year.

A child must be five years old on or before December 1 of the school year for which busing is requested to be eligible for busing (same as public school). All children, for whom proper written application is made before the appropriate deadlines as provided for in Education Law and for distances within the limits specified in the Education Law, shall be assured of receiving the requested transportation.

If a parent has made appropriate application for a respective non-public school by April 1 and then, for whatever reason, moves within the school district, a new application for transportation from the new address should be made, as soon as possible, and must be made within thirty (30) days of the move to ensure busing. If the mileage exceeds fifteen (15) miles, it will become the parents' responsibility to transport the child to an appropriate pick-up point.
