Chair: Tim Shields

AGENDA

1.	3:00 pm (5 mins)	Welcome, introductions and overview Attendees: Jason Davis Anne Canning Annie Gammon Caroline Selman Christine Ade-Ojo Daniel Lawless David Maher Emma Wynne Gerry McCarthy John Robinson Karen Law Lee Sandy Marcus Barnett Mark Golledge Mathieu Bergeal Maurice Mason Mike Hamer Nina Griffith Pauline Adams Sarah Wright Tim Shields Stuart Weber Apologies: Aled Richards Sandra Husbands	Chair
-----------	---------------------	---	--------------

		- Are we picking up what we are doing in terms of communication and engagement with schools on young people going back into school settings in terms of things like safe travel and peer on peer robbery. Actions MM to send Cllr Selman a copy of the paper presented by Manni at the Gangs and Serious Violence Board which explores in detail the age range of individuals involved in robbery. SW to look at the data in Maurice's paper with regards to work being done on under 18s involvement in robberies, although not aware of anything we are doing strategically. Outside this meeting make sure these links are being made. i.e, that there is a summer offer but there are also thoughts around the ending of summer and children going back to school Night time economy Key updates / issues: • Brought the end of year figures up to date - main two areas being Shoreditch and Dalston. shoreditch up 29% by the end of the financial year, although this has come down a lot from the previous three quarters due to covid 19. Dalston up 11% • Shoreditch - violence fell by 4.3%, would have happened irrespective of covid situation so this is a positive. Drug related offending increased by 32% - due to police proactively, Operation Lagana. would have seen a 7% decrease without proactive operations. • Robbery increased by 82%. robbery started to rise in quarter 2 and remained high until the end of the financial year so this is something we need to focus on down in shoreditch in particular • Sexual offences increased but number still quite low • In Dalston, most increase in quarter 3 and down to ASB	Karen Law
--	--	---	------------------

		• A meeting has been arranged with multiple partners including the police and officers to preempt reopening of NTE. Police counter terrorism officer will also be attending • Starting some work around drug related hotspot activities. Gillett Square a key area. • operation continuum up and running, a number of arrests have been made • Questions around the consistency of recording of the levy funded patrols? Needs to be captured as well as the conditions of the levy contract. Resourcing issue in terms of filling out spreadsheets or forms to capture the activity • Cllr selman requested update as to what the interaction is between restarting charges for levy with businesses still in a shaky position and funding the levy patrols Actions Maurice to speak to Marcus regarding the late night levy Violence against women and girls Key updates / issues: • Significant increase in referrals into DAIS - up about 50% • reports to police have gone down • extra resource has been put into DAIS • A lot of awareness raising and publicity going on Safer Young Hackney Key updates/issues: • Many activities have been moved to being conducted virtually - alot of court work being done virtually or on hold until courts are back in operation. About 56 cases being monitored currently awaiting to go to court • Disproportionality - 100% of CYP in custody presently are from BME backgrounds, BME children 3x more likely to be arrested than white children	Sarah Wright Sarah Wright
--	--	--	---

		• Work with courts to look at approach to sentencing, trauma informed training across the partnership but still a lot more to do Actions: SW to chase on analysis regarding drug related stop and search (action from Feb carried over at May Safer Young hackney board) MM to follow up with Dominic to see if he has been able to pull together this data (20 mins) MPS - MPS performance and impact on crime of COVID-19 (10 mins) Key updates: • Reduction in knife crime with injury for u25 - now at its lowest since 2014 • Overall weapons down • All violence with injury -8% reduction on the year • COVID has impacted robbery and burglary - has gone down • Question around police understanding of our Domestic abuse data - referrals to Council service up whereas police reports down. This may be an issue of where people choose to go to report. to be picked up outside of meeting • We need to think about these two data sets and have a clear narrative of what each is doing and what we understand by that COVID-19 impact on hate crime (10 mins). • Brittany gave overview of key points in hate crime paper • Some engagement with Southeast Asian communities needed. Would be good to communicate back to local organisations around the work being done in order to provide reassurance that this is being taken seriously Actions:	Marcus Barnett / Dan Rutland Brittany Alexander
--	--	---	---

		Share this paper round to community organisations that represent chinese and east asians communities to provide some level of reassurance as well as insight into the work we have been doing Marcus to chase up on data around police enforcement of social distancing measures by demographic for Hackney specifically CCG - Neighbourhoods approach/neighbourhood conversations (15 mins). • Nina Griffiths gave background on Neighbourhood programme and update on more COVID specific work that has taken place • COVID pandemic has enabled a lot of what is trying to be achieved by the neighbourhoods programme to be expedited and has justified the case for change in terms of neighbourhoods and why we need strong, community based services that wrap around residents and communities. We have been able to draw upon system response to covid pandemic to put in a place a number of aspects of the neighbourhood programme much more quickly. • Neighbourhood based conversations - COVID has enabled us to establish neighbourhood based conversations across the 8 neighbourhoods. Virtual sessions about building local networks and communities and getting a sense of what is happening on the ground • Fast tracked multi-agency working - set up and established 8 neighbourhood teams to support those that are most vulnerable or with particularly complex needs. Reestablished linked with wider Council services e.g, Housing, benefits, employment and skills, DAIS • Next steps: building on multi agency teams, working with VCS to build and develop neighbourhood conversations Role of the group: • Note performance updates and discuss any challenging areas, agreeing partnership action to address these.	Nina Griffiths / Mark College
--	--	--	---

		covert behind the scenes approach. Nearly fully staffed. • We have an increase of 52 officers across the BCU Role of group: • To review draft vision and strategic principles, agree process for finalising, ensuring strategic alignment, and further stakeholder engagement. • Note and ensure violence suppression unit is aligned locally with approach and existing partnership activity. • Ensure local input and alignment of IOM refocus on violence reduction Papers: • Draft violence reduction vision and overarching strategic principles. • Draft serious violence communications plan.	
5.	4.30 pm (10 mins)	Victim Support: Children and Young People Homicide Service Context: This item provides an opportunity to hear about the victim support service that supports children and young people that have been witness or bereaved through homicide. The remit includes all types of homicide including both serious youth violence and domestic homicide. The support is immediate intervention, with initial work being over 3 months on a weekly basis (support can be longer is necessary). Role of group: To ensure service offer is understood and linked in well to local provision Key updates / issues: • Came about from funding from VRU, started on 1 April • Supports young people from the ages of 4-17 and 18-21 on a case by case basis who have been bereaved, witness to or significantly impacted by homicide or man slaughter • Young person led service - initially for 3 months but can be extended depending on needs of the specific young person • caseload of around 16 young people at the moment	Daniel Lawless

		• referrals have mainly come from adult homicide services and family liaison officers • peer support service in the works - less intensive for more high functioning young people • work takes place outside of the family home in an independent safe space such as a school setting • work is ongoing to ensure there is a clear and concise pathway into CAMHS Actions Dan Lawless to send over copy of the referral form and any information that can be circulated to C+F practitioners Victim Support to be linked into the after incident response protocol	
6.	4.55 pm (15 mins)	Community Resilience Partnership (CRP) update Context: The item provides an update on discussion and key actions at the CRP meeting on the 22nd June. The meeting is jointly hosted by Hackney Young Futures Commission and the Youth IAG and has a focus on ensuring young people's involvement and influence on our policing and enforcement approach, engagement with young people and VCS on the draft serious violence principles and improving outcomes for young black men. • Some very productive and fruitful conversations while some were more challenging • Young futures recommendations, ACCOUNT group recommendations - ensure everyone has read recommendations and is clear of what they are. • Need a clear public statement of commitment to some of the concerns that have been raised around trust and confidence Actions Tim to convene a discussion with borough commander around how we can take these recommendations forward. Hope to schedule a meeting for next week. Role of group: Discuss the actions agreed and ensure commitment and mechanism to delivering on those actions.	Cllr Selman

7.	4.55 pm (5 mins)	AOB and Close Date of next CRP meeting: 17th September 2020 Date of next SOG meeting: 1st October 2020	Chair
