

Review Lab Activity

Go to

http://bcs.worthpublishers.com/webpub/Ektron/Myers%20Psychology%202e%20AP/Ektron_links/PsychSim%20Tutorials.html

During this period, look at as many activities as you can (at least 3), and spend the entirety of the lab time on this site.

For up to 5 points of extra credit (due by the end of the week), you may choose to respond to the following questions and submit them to me. (This needs to be done on your own time, though).

1. Which activities were most helpful for review?
2. Which was/were most interesting to you (if not necessarily the most helpful for reviewing terms)?
3. Which should I incorporate into the appropriate unit(s) next year, and what makes them worthwhile?
4. Briefly explain 3 terms that came up in these activities, and whether you knew them or they were new to you.

Each response above needs to include a brief description of the activity and an elaboration of what make it helpful, interesting or otherwise worthwhile. Your response should be 1 page double-spaced. You may choose to number your responses (narrative form is not required).
