

# The Delusion deepens over Covid 19

## Summary of interview with Dr. Peter McCullough with the Christian Worldview.

The interview went for hours long, but here is a summary. First, I gathered together the critical topic, main points, and what stood out as essential ideas. Then, I write these in my own words how I understand them.

I chose bullet points for clarity.

- David Wheaton is the interviewer, and the website is TheChristianWorldview.org.
- Dr. McCullough is a renowned leading expert in the Covid-19 field.
- Dr. McCullough was fired when he practiced medicine in Texas and then sued.
- Joe Biden just mandated all companies with employees over 100 to vaccinate or be tested invasively weekly.
- Up to fourteen thousand dollars fine, if businesses do not comply, did you know that?
- The Christian Worldview interviewed him because they care about the truth. Subscribe!
- Dr. McCullough has the highest credentials. Much success treating patients.
- Globalized government and vaccines lead to the mark of the beast.
- Dr. McCullough was one of the first to promote alternatives like Ivermectin.
- His bio is too long to list. But he has 600 publications and 40 on Covid-19 alone.
- He is the editor-in-chief of many medical, scientific journals.
- Iodine drops in water as a gargle, he says to use for disinfection.
- Zinc, Vitamins D and C, Quercetin are important.
- Many Studies show Hydroxychloroquine works very well.
- Many Doctors are on the sidelines. He says to choose senior doctors over juniors.
- Negative words about Ivermectin cost human lives.
- The Media spins Ivermectin as a HORSE DEWORMER.
- Ivermectin is an award-winning ( Nobel) human-grade product.
- Psalm 46, "God is our refuge and strength, a very present help in trouble. Therefore, we will not fear though the earth should change."
- There is so much fear and medical disinformation promoted by the fake news media.
- Dr. McCullough has four decades of practice and still holds board certifications.
- He is the most published person in history in his field.
- Senators have reached out to him for his advice.
- He is a frequent contributor to Fox News.
- The medical controllers wrote defamatory articles about him over his firing. They did not like his ideas.
- The "Health" system is trying to silence him.
- He has been stripped of his professorship at Texas A&M.
- Remdesivir is a failed Ebola drug.
- There have been zero briefings on Covid 19 vaccine safety. He thinks it is odd.
- Three products and no safety reviews?
- VAERS reports 13 thousand deaths linked to it. The 1% reported adverse reactions.
- Five thousand cases of myocarditis happened after the injection.
- Johnson and Johnson's vaccines have paralysis problems.
- Guillaume Barre, or paralysis of your body, is very high after the shot.
- Blood clots in the brain are the most common side effect. (Imagine having a clot the size of rope in your head!)
- There's nothing that will cause more vaccine hesitancy than knowing somebody who died after the "vaccine."
- There's nobody in America that thinks these "vaccines" are safe.

- The majority of people dying are vaccinated.
- Vaccines do not cover the "Delta" variant.
- Israel and the USA now want to give boosters, and it has not even been a year.
- Pfizer is now a dead vaccine. Not commercially viable.
- Pfizer is not approved. It is still under the emergency authorization act. That is a false talking point going around.
- "We have a crisis of incompetence on the COVID-19 vaccines."
- Americans don't want them.
- "We have about half of America taking the vaccine early before we knew all this. "
- The vaccine uptake has come to a screeching halt in mid-spring. ( I notice none on Facebook puts their "I got my covid vaccine" profile frame anymore)
- The CDC says the program is voluntary. So anybody mandating a vaccine is demanding something as voluntary—the oddest thing.
- No job, no student status, no social class is worth risking one's life
- He thinks the REAL number is 45,000. Americans have lost their lives due to the "vaccine." (That's like the total casualties for a war.)
- The injuries, the cardiac system of heart, neurology of nerves, the immunology of your bodies' immune system, and hematologic blood injuries, some of them are permanent!
- There's widespread corruption towards forcing an unsafe and ineffective "vaccine" on the population.
- The mass will of the population is needed to break the back of this "vaccine" cabal.
- Dr. Peter McCullough was on Tucker Carlson.
- Tucker himself asked him, "What is going on!?"
- The vaccine program is absolutely a menace.
- He says the suppression of early treatment is immoral. It's unethical. From a civil perspective, it's illegal.
- "We see malfeasance by multiple officials and agencies in positions of authority."
- "We're seeing willful misconduct going on."
- "We see pretty honestly fraud and fraudulent reporting in the media and intentional misinformation from those in positions of authority. "
- And then you see the counterweight of people like Dr. Peter McCullough trying to bring truth.
- The "vaccine" is not a "vaccine" and is relatively ineffective. It's potentially dangerous.
- It should be your choice, not the government's or your employers coercing you.
- Yes, that there is an evil worldview pushing it.
- He says evil is profiting off this.
- What's pushing this evil worldview is control.
- They say there are too many people, and this could be population control. More People= worse earth, they say.
- If the vaccine you give to your family ruins their ability to have children, well, you're slowly depopulating the world.
- Wait till they start advocating for internment centers for those who are unvaccinated.
- Wait until they start taking the children away from parents who are unvaccinated because you're endangering them.

- Apostle Paul said to the Ephesians in chapter six. "Our struggle is not against flesh and blood, but against the rulers, against the powers, against the world forces of this darkness, against the spiritual forces of wickedness in the heavenly places."
- Paul goes on to say, "take up the full armor of God so that you will be able to resist in the evil day, and having done everything to stand firm." But to stand firm in the Lord, you must first be in a right relationship with him. Subscribe to Christian Worldview and be saved!
