Akhal Teke

- Finely modeled head
- Unusually long and muscular neck, set very upright onto the shoulders
- Sloping shoulders and high withers
- Deep through the chest but very narrow width, narrowness continuing through the frame
- Long back with shallow rib cage
- Long and fine-boned in the leg, with a particularly long and narrow thigh on the hind legs
- Often sparse mane and tail
- Chestnut, bay, black, grey and cream dilutes, frequently with a metallic coat sheen
- 14.2-15.2hh
