

HOW I EARNED MY FIRST ₹50K AS A CREATOR

I started with zero experience and slowly explored different creator platforms, affiliate programs, and paid collaborations. These are the main sources from where I earned my first ₹50,000 online:

1. Wishlink

This was one of my biggest sources.

Ways I earned from Wishlink:

- Affiliate earnings through product links
- Paid collaborations with brands
- Streak rewards for consistently sharing links

If you're a face creator, you can get a lot of collaboration opportunities here.

2. Viral Pitch

A great platform for:

- Paid collaborations
- Reimbursement campaigns

They work with amazing brands like Lakmé, Maybelline, and many more.

3. Influns

Side earning sources:

- Paid collaborations
- Refer & Earn system

They give around ₹50 per referral, which is a great way to earn side income consistently.

4. NAP Program

I personally earned around ₹10K in one month through this program.

Mainly by:

- Sharing affiliate product links
- Recommending products to my audience

The payment system is slightly confusing at first, but the affiliate payouts are good.

5. Campaign Management & Agency Tie-Ups

I also earned by:

- Managing creator campaigns
- Handling collaborations
- Working with agencies & brands

This helped me expand beyond just posting content.
