

Team Profile

- Team name: Everyone suggest one name and we will vote later
 - Old Guy
 - Pabo boys
 - Dojima family (context: yakuza reference)
 - IT guys.
 - final: Old Guy
- Personal Information & Team Profile: Each one does their own info based on the first assignment
- Ideal Jobs: Each person name their ideal job (also the requirements for the job) and everyone will make comparisons with their ideal jobs based on the questions on Canvas. - Watch other information at the link below.

Tools

- Set-up Github and send a link to other members: ...
 - Minh: https://momoclouq.github.io/RMIT_introlT_Assignment1/
 - Dat: <https://nguyendat1612.github.io/ITProfile-S3870837/>
 - Quang Anh: <https://devtorious.github.io/ITprofile/>
 - Trung: <https://s3836390.github.io/ITProfile/>

Industry Data (Do individually)

IT Work

- What approach should we choose: IT professional or Youtube Videos (Suggest/Send the information/link of the person/youtube channel)
 - Trung: I suggest we choose to investigate an IT professional because i know someone who fits the description.
 - Final: Interview an IT professional

IT Technologies

- Each member choose one area and do the report based on the questions in Canvas
 - Dat: Robots
 - Minh: Clouds, services, servers
 - Quang Anh: Cybersecurity
 - Trung: Autonomous vehicles

Project Ideas

- Choose one idea from one member (could be the completely original idea or we can change it a little to be more suitable to do as a project in this course) - Need a meeting of all members. Each one writes down the **free time to set up a group meeting**.
 - Minh: Official Manga reading website (read more on my website)
 - Trung: Website that takes user personal information (weight,height,etc) and calculate the nutrition they need in 1 week/month and related function.
 - Quang Anh: Anti ads and malware computer for productivity

- Dat: Cooking recipe for left-overs to alleviate the food-waste problem
- Final: Dat's idea with additional features from members

Feedback/Group Reflection

- Each one gives feedback to others every weekend and sums up as a report at the end of week 8
