EVERETT APT PRESIDENT 2023 NOMINEE: MARY DANA MAGGIOLINO

Mary Dana Maggiolino is a true Everett Eagle. Having at least 1 child attending Everett Elementary consistently over the last 8 years has made Everett Elementary school her second home.

She has been attending Everett APT meetings since her son, whom is currently 13 years old, started kindergarten at Everett. "I'll never forget walking into my first meeting with my three-year-old in tow who is now a fourth grader at Everett!" Since then, she has been volunteering her time to make student Music Shows and Teacher Appreciation events successful. She became Kindergarten yearbook photographer when her 3rd child entered Everett allowing her to document all the fun Everett student activities over that year. She has held the Treasurer/Vice president position on the Everett APT board over the last 4 years and, she has continued to volunteer her time to make student events such as Boo Bashes and classroom parties exciting for Everett students. She is always willing to help coordinate parent-teacher interests that benefit the Everett Elementary school community.

Outside of the Everett community, Mary Dana is a busy mom of 4 kids (aged 13, 11, 10 and 5 years old). Whenever she is not driving around to all the sporting events and dance classes, you may find her working part-time at the Lake Forest Acute Care. She is a board-certified family practice physician who has focused on working in the acute care setting for several years to maintain work/life balance. She is also interested in Women's health and most recently in specializing in obesity medicine. "My career goals are to open up my very own medical weight-loss clinic in town."

In addition to balancing family time with career, Mary Dana volunteers at St. Mary's Church teaching Religious Education on Sundays. And when time permits, baking for her kids, skiing with her family, trying various cuisines with her friends, and practicing yoga for her own personal health.

Her husband's job is what drew them initially to Lake Forest 8 years ago. As a dermatologist, he opened a medical clinic right over the border in Pleasant Prairie, Wisconsin. Lake Forest provided the perfect location for their growing family --keeping him close to work while also getting them closer to their extended family who live in the Chicagoland suburbs.

"We have loved living here, meeting different community members, making close friends, as well as becoming a true Everett Eagle family! I am thrilled to be the next Everett APT president."
