- This creature should get your adrenaline engaged if you love beef production! He's a load that is incredible in his skeleton, flexibly hinged, huge in his rib cage, deep in his underline from heart to flank, level and wide pinned, big in his upper rib, and masculine about his front third.
- He represents the kind, volume, and capacity that is trademark to his sire and typical to the influence of his maternal grandsire as well. His kind is desired, and his quality is readily noticed.
- We appreciate his performance drivers with a moderate birth weight and ranks number one in his contemporary group for weaning with 821 pounds to ratio 113. Cowboy logic says you should own this one!
