

I take payment in USD, accepted through Paypal, Kofi, Cashapp, or Venmo. I take the full payment upfront, and am open to payment plans for anything over \$100 USD. I will do a full refund until the first sketch is approved. The cost of work already done will be deducted from any later refund.

My turnaround time is 2-4 weeks, depending on how busy I am with other commissions. With less slots, I often finish in 3-5 days. I send watermarked WIPs after the sketch, lines, flat colors, and final render, as well as updated versions after any requested changes to assure my client is satisfied. If I have not sent an update it's likely that I do not have one, but you are still welcome to ask!

For mech, Genshin, or other highly detailed characters, the commission price will be increased up to +75%. For extra characters, the price will be increased by +50% per character. If the commission is for commercial use, the price will be increased by +100%.

WILL draw

- Mecha
- Gore

CLIENT'S RIGHTS

The client has the right to use, post, or share the image for personal use as they please. If purchased for commercial use explicitly, the client may sell the work as prints, merchandise, etc. and may as well sell the rights to use the image. I retain the right to use a commission to advertise or demonstrate my skill, but have no claim beyond the recognition of being its creator. MY WORK MAY NOT BE USED IN AI TRAINING, CRYPTO OR NFT PROJECTS.
