*****RELEASE NOTES 174*****

Sprint 174: August 7-28, 2024, Release 4.8

=====

The following section represents Hotfixes that were released this sprint. A Hotfix is an emergency or important update that needs to be pushed to production outside of the normal production release schedule.

Hotfix v4.7.1, August 15, 2024

- [\[FOPS-552\]](#) Create and update UVM Press styles in Heliotrope [SUBTASK OF FOPS-395]
This hotfix set the mechanisms in place to release the University of Vermont Press aboutware on August 15, 2024.

=====

The following section represents development that are user-facing on the Fulcrum platform

- [\[HELIO-4561\]](#) Editor-Created Share Link Allows Monograph and Sibling Resource Access
This work extends the Share Link (also known as Scholar Share button) functionality developed to allow those without a Fulcrum role to preview a title that is in Draft mode and/or is a title that has restricted access.

The previous work focused on allowing the Share Link user to see the ebook in the e-reader. This work allows a Share Link user to see the monograph page, as well as the resources.

This is how the functionality works:

1. A user with Fulcrum privileges navigates to the e-reader and clicks on Share Link and copies the Share Link URL
2. The Fulcrum user sends the Share Link URL to the recipient
3. When the recipient goes to the link, they will enter Fulcrum through the e-reader
4. The recipient can use the X in the top-left corner to click out of the e-reader to go to the monograph page
5. Once the recipient is on the monograph page, they can scroll down to any resources that are available for this monograph

When a user with Fulcrum privileges provides a Share Link, they should make sure to communicate the following with the recipient:

- The Share Link URL is valid for 28 days
- The recipient of a Share Link URL cannot generate another link (the Share Link icon will not be available to them in the e-reader)
- The recipient of a Share Link URL cannot share the link with others to use
- When following the URL, the recipient will enter the book through the e-reader. In order to see the monograph page and resources, the recipient should click the X in the top left corner of the e-reader.

=====

The following section represents various performance improvements, investigations, documentation and bug fix tickets that were completed this sprint
