

### **.:Terms Of Service:.**

Thank you for taking the time to read through these! I'll try and keep it short. If you have any questions that aren't listed here, please feel free to message/note me! I am most active on Toyhou.se and DeviantART, though Toyhou.se is preferred for communication.

### **.:Adopt Rules:.**

Do not buy any art or adopts from me with the intent to turn them into N/F/T's or use them for AI art or to train an AI Engine. Anyone who does this will be instantly blacklisted from purchasing any of my adopts and then blocked.

**Please notify me when a character is sold/traded/gifted to someone else, and please tell me their username!** I keep a Masterlist of all the adopts I have sold and who they go to. This is to avoid characters being stolen or being made into N/F/T's. I will try to look through Toyhou.se when applicable (and when I am able) to see if a design has changed owners. Letting me know when there's an owner change just makes things a little easier for me! ♡

When reselling an adopt please only sell it for the price you bought it for. If additional art from commissions are added on, then that may apply to the overall price.

Do not turn my adopts into a Closed Species.

Do not trace my adopts. Do not try to make your own adopt with them. Anyone who does this will be blacklisted and blocked.

I use Paypal primarily. Please keep this in mind when purchasing adopts from me.

When purchasing an adopt, you have 48 hours to send the payment. If you need a day extra, please let me know in advance. If you do not send the payment within that time I will contact you. If you don't respond within two days then the adopt will be offered to the highest bidder behind you. If no one else has bid, the adopt will be put back up for adoption.

Anyone who bids and then backs out more than three times will *not be able* to purchase adopts from me in the future. I absolutely understand that things can happen offline, so if something comes up and you don't think you can purchase, please let me know!

Do not resell/trade my adopts to people *you know* have been blacklisted. Anyone who does this *will also* be added to the blacklist. I have a blacklist at the bottom of this document, it's very easy to take a quick peek at.

Please have an account that is at least six months old before purchasing. I will not sell an adopt to anyone who has an account that is empty or below six months old.

Always credit me for a design. If you want it on Toyhouse, please link back to my Toyhouse after you add it there. I can also put it on Toyhouse for you, and then trade it to you from there.

**My adopts are not for commercial use!** If you wish to use a design for commercial use, please *contact me directly* and we can *discuss* it. An additional fee may need to be paid. **For designs made with a base (P2U/F2U), commercial use is NOT allowed under any circumstance.**

---

### **.:Do's and Don't's of Adopts:.**

#### You may...

- Change or add onto the design as you desire
  - Resell, trade, or gift the design.
  - Change their gender, history, race, etc!
- Make charms, stickers, or keychains as long as ONLY YOU have access to them. Do not make these to sell around.
- Post the design/art where you like! Just credit or link back to me please
  - Throw them into any universe/story you'd like

#### You may not...

- Claim you made the art or design
- Resell for a higher price than you bought it for. In the case of commissioned art, that can add onto the original price.
- Use the design or art for commercial use. This has to be discussed in DM's or Messages, but this is not allowed under any circumstance if a P2U/F2U base was used.
  - Make the adopt into a Closed Species
  - Use them for hateful imagery or speech
    - Turn them into N/F/T's
    - Sell them as N/F/T's
  - Use the design for AI or to train an AI Engine
- Trace the design to make your own species or design

### **.:Blacklist:.**

Thankfully no one so far! ♡
