The ONLY A.I Assisted Funnel Builder That Is 10X Cheaper, Better & Easier To Use Than Clickfunnels, Convertri, Wix & More!

Body:

Are you currently spending money on funnel builders like clickfunnels, wix & convertri?

Listen while these platforms are great, they ARE very expensive.

If you're using any of them I am sure you know the DREAD before the monthly payment.

Because of the pricing alone, the vast majority of my customers end up Using really terrible cheap builders, since affording the good ones is VERY expensive.

On top of that, even the expensive builders lack A.I, which is so critical in today's business world.

So what do we do? We either write content ourselves, hire someone, or use something like ChatGPT.

The bottom line is..there's no winning with this unless you're loaded.

And I'll be damned if I don't recommend the builder **I'm using** that saves me money, time and honestly just produces far better results for me using A.I.

Just like clickfunnels and convertri, but far cheaper and far better.

It's going live tomorrow, August 13th at 10:00 AM EST.

Swipe #4 - Agency Angle

Subject: Charge clients \$400+ for a simple service you can do in 3 clicks

Body:

If you run an agency of any sorts (it's ok even if it's not profitable at the moment, I'll show you how to make it profitable in this email)

Then you know that it's incredibly hard to make money with it because You have so much competition.

Any service that is in demand, has tons of competition, tons of other people just like you, possibly with your same software, are offering their services..

Well obviously you have two choices here:

1. Either keep pushing until you make it
2. Find a new service

The first one is hard and demotivating.

The second one is hard, you need to do tons of research.

Luckily, My friends were studying the top players that are successful with agencies, what they're doing to get most of the traffic and sales the market has to offer **And they came up with this:**

ALL top players and biggest money makers are selling web design, pages & funnels + content.

It's not the highest paid service OR the most in demand, but it holds a perfect balance between easy and low competition.

That's because in order for someone to sell funnels to clients, they either need to be REALLY good designers & coders, which is rare.

Or, they use a funnel builder like clickfunnels, but in most cases the client needs to have a clickfunnels account as well.

But wait, This is where it gets REALLY interesting.

A powerful new funnel builder just came out, called A.I Funnels by Convertlead, which combines A.I and an easy agency right there on the front end, allowing you to launch the agency and start selling in MINUTES..

It's a big advantage to have something like this.

And clients pay \$400+ for that. And more.

And you can start selling them as a service in the next 15 minutes EASY.

Make sure you deeply check this out, it's such a hot agency service ⇐ LINK

Enjoy.
