Fears: • Abandonment

This fear has been a long, lingering issue in Yuki's life, stemming from the time they realised they were abandoned by their parents at birth. Yuki is very attached to the souls, being separated from them without their knowledge or knowing where they are causes them to have bad separation anxiety(?).

Personal goal(s): Find a family, become stable emotionally & financially

General attitude: Yuki is usually a witty & out-going person with people around their age. They like to take risks & have a tendency to make impulsive decisions that they later greatly regret in the long term.

Yuki is a person who can be very ambitious with their goals, but occasionally, such goals can be unrealistic & the souls will be forced to knock them down a few levels, as gentle persuasion won't work on them. The result of such treatment would make them unmotivated to pursue/complete anything for a brief period of time.

They also can be dense & insecure, letting their insecurities affect their relationships, effectively turning them toxic or unstable, forcing them to burn a lot of bridges. However, if someone were to be patient enough to stick through all their insecurities & help them work through them, they would become very affectionate (verbally & physically) & would attempt to do anything in order to spoil such a person to show how much they appreciate them.

History

Childhood:
Yuki has trouble recalling the majority of their childhood. They roughly remember the orphanage they somewhat grew up in, along with running around in a forest admiring plants, climbing trees & hunting for 'epic looking insects.'

Teen years:
Yuki had a particularly rough time during their adolescence, as they found themselves constantly hopping from home to home & family to family, to the point they started to have a constant sense of dread from moving & being rejected by families. They would go through almost all sorts of abuse, namely physical & emotional.

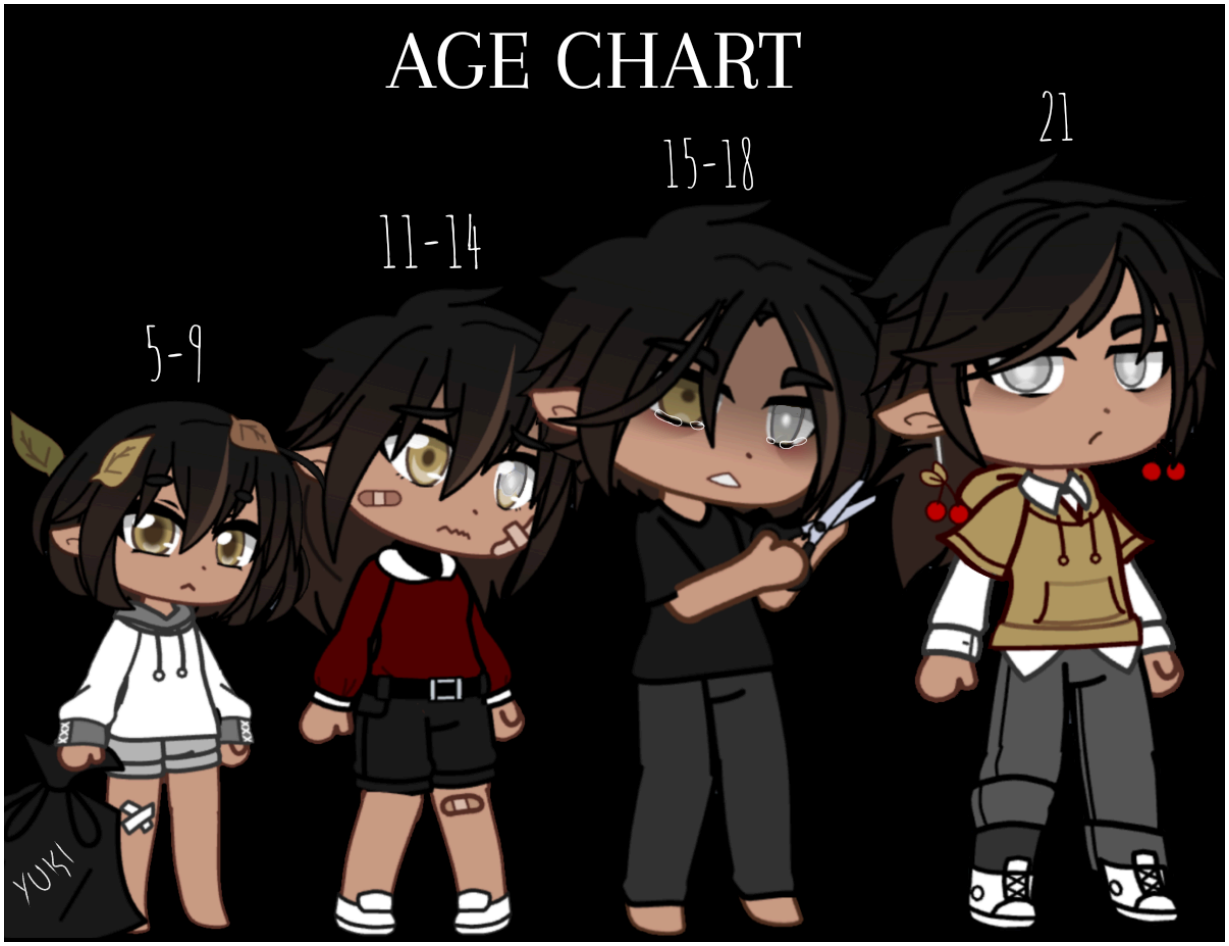

Around the age of 12, they started to explore their identity & came out as a trans guy, and went by their last name Eridian, due to their first name, Yuki, being a common 'name' in their school. They constantly dated individuals (both irl & online) as the souls tend to rush into relationships in hopes of distracting Yuki from their 'home' life. One of their only solace was an angel with stunted wings— Achara Xenia Hukkomelse.

However, that turned out to be a mistake as the more relationships they got into & broke off, the more bitter & hateful Yuki became. The constant rejection from their possible adopters & partners caused them to have a fear of abandonment, which led them to struggle to keep friends in their college years.

Adult years:
For a long while Yuki dreaded becoming an adult for many reasons, with two of them losing the chance to be legally adopted without complications & aging out of the foster care system with barely any support to fall back on. They went into college studying for a Business Management degree, as they wanted something simple & wanted to get everything over with quickly.

During this period, Yuki stayed with Xenia when they were looking for a place to live in for university & overhead her talking about living with a roommate. Yuki used her car to drive themselves & Xenia to college, along with driving it whenever they wanted to go out for small road trips. They were okay friends for a while, until Yuki's mental health dropped as they started to have doubts about everything, including their identity. Xenia helped them to come out as Non-binary & cared for them when they were stressed out & barely taking care of themselves from working a late, long night shift job daily.

However, Yuki decided they couldn't stand staying in the same place any longer & impulsively bought a plane ticket back to Neorune using Xenia's money after living in Cronqa for 3 years. This led Yuki to ghost Xenia completely. Returning to Neorune on a whim has greatly affected their finances, as they now struggle keeping food on the table. They continued to work in jobs that barely gave them a holiday, and fired them after a month or less. They laid off relationships for a bit, & have decided to finally work under Teviel, the god of deception & the mayor of Pasithea, as his assistant after a year back in Neorune.

Relationships

THE DEIFIC SPIRIT

Cursed companion from birth

"You can't really have an opinion on things made of mass undead people."

"To be honest, I have a hard time believing the affection they show or express. I.. I have a feeling a good chunk of them love me like 'blood' family, but don't like me as a person. It's disheartening. I know I'm a bad person, but.. man. I wish I wasn't so truly unlovable.'

XENIA HUKKOMELSE

Ex-friend
Met when Yuki was in senior year of high school
"Xenia!! Cute girl. She's the person who got me into taking photos more often. She's just.. so understanding & sweet, I kinda hate that about her. She's emotionally distant & apathetic about a lot of things for some reason, too. I can't tell if cutting her off was for the best."

XAVIELL HUKKOMELSE

Neighbour & Colleague
"Why do I have an emo for a neighbour?"

"Dude got serial killer vibes."

TEVIEL DAEMON HELMER

Boss
Met through an interview to become his assistant
"Mr. Helmer- I don't like him. He's kinda annoying, honestly- He has a formal, wordy manner of speech that bores you out of your mind. Kinda like a teacher. I don't understand why he's popular, he's probably some depressed, pathetic old man under that mask. "

"Ah.. Teviel? I guess I'm warming up to the idea of having a decent relationship with him. He trusted us enough to reveal his face to us- I feel horrible for being so repulsed by his burn scars. I need to show some more compassion.. What does he like again?
