

Park - Ward Lake

We propose that Taylor Morrison work with Manatee County and Bradenton to create a park that provides views, recreation and access for the new development and nearby residents. The County owns property in this location and an easement from Bradenton to the land south and east of the lake would provide additional property.

Ward Lake is an attractive lake providing water supply and recreation. Manatee County has provided a nice recreational facility called Jigg's Landing located at the northeast corner of the lake. There is no access from the southern border of the lake. The arrows above show the existing Jigg's Landing and the proposed park.
