Communications Producer

Date	Question	Answer
15/07/25	Is the £27,000 what would be paid for the 30 hours a week, or would it be 80% of this?	The £27,000 is the full time salary, 30 hours would equate to £21,600 per annum
20/07/25	Will there be any room to consider a wage/hours increase for the right candidate in your role	Unfortunately due to budget constraints we are not able to offer above this rate at the moment.
29/07/25	The link to the skill matrix is incorrect	Please use this <u>link</u>
31/07/25	Would you consider a 3 or 3.5 day working week?	As outlined in the job pack, the role is a busy one, and requires a certain level of flexibility as we are a space with lots going on and lots of ambition. Ultimately, three days, particularly without sufficient flexibility, would be a challenge to manage. We settled on four days for the role after a reasonable amount of deliberation, and it would need a particularly special candidate, as well as a commitment to flexibility in order to make this work.
