

Track your work while you are working from home! For each 15 minutes of time you spend on an activity from the TSD Learns! website, color in one square on this game board. When you return to school, you will get to enter each game board in a drawing for prizes. We will also feature you and your excellent work on our website and TSD Social Media. You can fill as many game boards as you wish (make copies as needed), as long as the work is part of the outlined work on our website. (Yes, reading counts!) Get to work!
