- Sweep the pebbles and rocks off the spot before you paint.
- Use chalk to draw out your sketch.
- Start painting at the front of your spot out to the end. (front bumper to back bumper) because there are others working beside you and you cannot step on their spot.
- Consider making a stencil ahead of time for lettering and detailed images to save a lot of time.
- Limit your paint palette as the quarts of paint are expensive or share colors with a friend.
- It will take 2 quarts of paint to cover the spot if you are using a solid color.
