

*hi*

This is a document to help me go through Omicron Complex's releases to help me chronologically order them in a Soundcloud playlist. This is also meant to serve as a guide as to why I'm ordering the playlist the way I am. Singles are placed after the albums both here and on the playlist, and any mixes are placed at the very end. If any tracks are missing, they will be **highlighted**. If any tracks have already appeared in an album, the track name will be ~~crossed-out~~ and the album it first appeared in will be placed after in parenthesis. If you'd like to upload any missing tracks and I'm taking too long to figure out that it was posted, feel free to DM me on Soundcloud. :-)

Any links will lead to Soundcloud unless specified otherwise
