

CYRUS LAURENT

Electronic Press Kit

DJ · Producer · Salt Lake City

Cyrus Laurent makes the unfamiliar feel inevitable.

BIOGRAPHY

Cyrus Laurent builds spaces that feel dangerous, dark, and a little mischievous.

Rooted in tech house and melodic techno, she's carved out a reputation in Salt Lake City's underground on the strength of one thing: curation that stops people mid-conversation. Not because it's loud. Because it's right. Each track chosen like it was always supposed to be there. Each transition pulling the crowd somewhere it didn't know it was going.

Cutting her teeth across SLC's underground circuit and holding a residency at Sun Trapp, Laurent has developed a sound that rewards attention. The music is minimal, layered, alive with subtext. Something moves underneath it that's hard to name.

People leave with something they didn't walk in with and are already planning to come back.

Her productions follow the same logic, DUALITY, Thinking in Waveforms, TWILIGHT CONSCIOUSNESS, are less individual tracks, more dispatches from somewhere you're not sure you should be.

But you want to go anyway.

WHAT PEOPLE ARE SAYING

"Cyrus has been a trusted DJ across our sponsored music festivals and several of our smaller branded events. She consistently delivers high-energy, crowd-focused sets. She reads the room effortlessly, keeps momentum throughout the night, and adapts seamlessly to different spaces, audiences, and demographics. Professional, reliable and always engaging. We are proud to have her as part of our entertainment family."

— The Violet Hour — Event Partner

"Cyrus Laurent is unlike any DJ I've worked with in the event industry. They don't just play music: they curate an experience. Cyrus takes the time to understand the crowd, the purpose of the event, and the exact feeling you want guests to leave with. Their ability to read the room and build the right energy is unmatched. I'll absolutely continue working with them and highly recommend them for any event."

— Genna — Say Les

"Booking her was one of the best decisions I've made with our entertainment to date. Cyrus hits all of the typical dance music but throws in a flair that is so creative and current. I was completely blown away with the creativity, transitions, and pure talent in her DJ skills. Incredible DJ 1000%."

— Mary — Sun Trapp SLC

"I worked with Cyrus for my fundraiser. They showed up fully prepared, set up early, and lit up the dance floor. Everyone was into every single song they played. The best part? Cyrus was smiling and shining through her set. Her energy was contagious."

— Luna — Sappho SLC

SOUND

Tech House · Melodic Techno

Sets built for rooms that know how to listen. Technical, intentional, and alive with subtext. Dark enough to pull you in. Precise enough to keep you there.
