From The Desk of James B. Allen
Boso Peninsula, Japan

Dear Warrior,

Are you in one of the following categories?

- You've got a **burning desire** to make money online, but you are new to the scene and you feel like there's just too much to learn before you can get started. Information overload is stalling you every step of the way and you are getting nowhere fast.
- You've purchased and read plenty of ebooks and reports and you feel like you know "how" to do things, but you just don't have the time to implement what you've learned.
- You keep having great ideas for info-products to create and sell online, but you **haven't taken action yet** because you don't feel that you have the know-how, skills, confidence or contacts to accomplish it.
- You already have at least one profitable product up and running - and you like the results - just not the process. You've thought about outsourcing all aspects of product

creation - but it's hard to find outsourced workers who are experienced in the field. You wish that someone with a proven record would offer to do it all for you so you could break through that final barrier that's preventing you from becoming as **successful** as you deserve to be!

If any of the above describes **YOUR** current situation, you've come across this letter at the best possible moment. Here's why...

You see, **I'm** a full-time "work at home online dad" whose specialty is researching niche markets and building income-generating systems to tap into them with.

I have been making money on the web since my first internet venture selling out of print and antiquarian books on eBay back in the late 1990's.

In recent years, I have worked "behind the scenes" doing freelance info-product creation, copy-writing and website marketing for myself and private clients.

Besides my personal networks of profitable blogs and websites that I operate in various markets, I regularly create, launch and promote my own info-products with tools for fellow internet marketers and entrepreneurs.

Recent titles and sites I have created and released include:

- **Affiliate Income Machines Collection 1**
- **Hot Niche Markets From Japan**
- **Japanese Sales Secrets Revealed**
- **Internet Profit Optimizer (With Kevin Riley)**
- **Local Product Profits Systems Volume 1 & 2 (With Kevin Riley)**
- **Business Ideas International**
- **and More...**

I deeply value the time and freedom the online income streams I create provide, and I enjoy helping other motivated entrepreneurs do the same.

I believe YOU should live life on YOUR own terms too, but...

Lately I've heard from a lot of people who are complaining that they **just don't know where to start**.

Replies like "do something", "take action" and "stop being lazy" get thrown around a lot. They may be good-intentioned, but frankly, I think that's insulting. **Most people aren't lazy, they're just lost.**

With so many people still lost and wandering aimlessly, struggling to find their start in the world of online marketing - I realized that with my experience, I'm in a unique position to truly help some folks finally GET STARTED. But how?

"Why not just find those that want to be successful online and create an an entire info-product FOR them?"

That way, for these so-called "lazy" people, you can just SKIP the longest and hardest part

of the start-up process and be ready to run without having to go through the initial learning curve, without having to do any research, without having to write the product, and without having to write the sales letter, In fact...

Here's What I'm Offering 5 "Lazy" Warriors

The first 5 Warriors who jump on this, each get to become the owner of a complete info-product package custom tailored for you - and you get to skip right past the whole initial "product creation" process. That's right - no research, no writing, no product development, no copy-writing, no sales page creation.

I take care of that all for you.

In fact, my package includes ALL of the following:

- **Complete 5,000+ word info-product.** Created by a PROVEN info-product producer (Me). I take care of all the research, writing, and formatting. You and only you get FULL rights to the product - as if you researched and wrote it yourself. Your info-product will be 100% original - and 110% quality. No recycled PLR content with this offer. I handle all the work - YOU take ALL the credit. **VALUE:** Minimum \$500.
- **Complete Short-Copy Sales Letter Written By A Proven Copywriter** (Me). I've written my own copy for ALL of my products. Why? Because my sales copy converts and makes me money. I'll write the sales letter for the product I create for YOU as if it was my own. Take a look at some of my sites above for examples. Want more proof my copy is appealing? Well, you're still reading THIS aren't you? **VALUE:** Minimum \$350.
- **Professional eBook Graphic** - Custom eBook graphic with your product title and your name to increase conversions on your salespage. **VALUE:** \$67
- **Basic HTML Sales Page And Download Page** - I'll format your sales letter and graphics in HTML along with your eBook Graphic. Your offer will be completely ready to upload to your server and start taking orders. **VALUE:** \$67
- **Full Personal Support** - during creation and after your package has been delivered to you, from someone who has been doing this for years. **VALUE:** Priceless. (Sorry, couldn't resist...)

Who I Am Looking For

I'm looking for just a handful of motivated individuals with a desire to succeed online but who don't have the time, skills, confidence or desire to complete this process on their own yet.

Who I Am Not Looking For

Please, if you are at the point where you need money fast, and you are grasping at any and all possibilities to generate enough income to cover your basic necessities because you are broke, unemployed, etc.. **this opportunity is not for you.**

This is not a "get rich quick" offer. This is a service offer. I am creating a complete product package for you. This is for people who are currently comfortable with where they are at and are able to take care of themselves and their families - but are ready to add new streams by selling their own info-product.

As long as you are not desperate, but ARE tired of spending all your extra money on "how-to" information and getting nowhere, this opportunity offers you a chance to finally invest in "getting it done" instead.

What Happens When You Act

Once you have decided that this offer is for you, you will "kidnap" me **by securing your position below**. As soon as your payment has been made, you have in effect taken me hostage. As your captive, I will immediately begin working with you to ensure my survival.

Here's what happens next...

- After I receive your payment, I will confirm via email within 24 hours. Please allow for the time difference between Japan and your side of the planet. 😊
- After our **initial consultation** by email where you let me know your product topic (I'll gladly help you if you don't know yet) I will begin creating your info-product. I am open to products on most topics, especially online marketing, business ideas, web research "how-to" guides, etc... I gladly accept the challenge of other niche topics too. Of course, you will receive an immediate refund if for any reason I feel I can not produce a quality product on your topic.
- Your **entire package** will be completed **within 15 days** - likely much sooner. You'll be hard pressed to find this kind of turn-around time for research and ghost writing like this - let alone all the other components you receive. Also, this time frame allows plenty of room for any changes and tweaks you'd like, so that YOU are 100% satisfied and comfortable with the end result. During that time, you'll receive regular updates and be able to give your feedback and suggest any changes or additions you'd like along the way.
- After your package is complete, I'll be glad to advise you on launching and marketing your new product. I'll even help you set it up online. (You'll need to provide your own domain and hosting - I can help you with that too.)

How To Get Me Started

For all the work you're getting done - and considering the experience of the person doing this for you, the full price of this package should be at least **\$1000. A real bargain** considering many IM gurus charge many times this amount just for basic coaching, and you would still have to do all the actual work yourself.

But you won't need to pay nearly that much...

You see, I am ready **right now** to provide this service for up to a maximum of 5 Warriors. If you qualify for this service, and you act quickly, you can get everything above - with YOUR name on it for just...

\$327

- a savings of at least \$673.00!

Of course, please let me know if you have any questions or comments. I'll do my best to answer you to help you decide if my offer is right for you. Feel free to post your questions here, or PM me privately - I'll hold any of your ideas you reveal to me in strict confidence, whether or not you decide to go with this.

I look forward to helping a few select Warriors finally have a product with THEIR name on it - that they can be proud of!

Sincerely,

James B. Allen

P.S. I recently ran a bigger version of this offer, which featured much more content and a larger graphics set, but at a higher price point and longer turn-around time. Many people expressed an interest, but they wanted something more within their budget that could be created faster. This version was designed to still provide clients with a complete product, but faster and at an even more reasonable price point.

P.S. If you've gotten this far, you've got a good idea of what's on the table here - a chance to finally get where you want to be - while completely avoiding the initial uphill battle yourself. You've seen how this is an incredible opportunity that will finally level the playing field for you. All you have to do now is ask yourself, "Am I Ready For Success?"

If your answer is "Yes!", [CLICK HERE](#) to get me started now.
