Listed below is our agenda for Thursday, June 12. We'll start where we left off for the July 22 session - after Tellagami! It would be SUPER-helpful if you could have all of the free apps downloaded before arrival. Our hope is to show you what the App does and then discuss possible options for classroom use … we will show and tell for 45 minutes and then have 15 minutes of "practice" time and repeat … for four hours!! It will be fast-paced and hands-on. If you don't have an iPad there will be one available for you to use from the HS Media Center.

We will have Chromebooks available too so that you can "make a copy" of this document for notes purposes. DO NOT PRINT IT … it is an evolving, live document …
