AWIGN EXPERT

Job Description

CAD Specialist (Creo)

Welcome to Awign Expert, a division of Awign - India's largest work-as-a-service platform. At Awign Expert, we connect skilled professionals with exciting contractual or project-based work opportunities offered by top companies. Our mission is to empower professionals by matching them with projects that align with their skills, interests, and experience.

At Awign Expert, we understand the challenges faced by independent professionals in finding meaningful work and managing administrative tasks. That's why we act as a dedicated HR office for our Experts, handling the entire onboarding process, providing continuous feedback, resolving conflicts, and ensuring seamless payroll management.

Our goal is to create a hassle-free environment for our Experts, allowing them to focus solely on their work without the burden of administrative complexities. By partnering with Awign Expert, professionals gain access to a vast network of renowned companies and projects across various industries.
