Are you collaborating with other institutes?	
Current funding available/awarded for the project:	<input type="checkbox"/> Yes, we have received funding at a value of:
Motivation why you should win: (Max 70 words)	

### Terms and conditions apply

The goal of this program is to support the education of NGS and bioinformatics for South African scientists, and to promote the utilization of cutting-edge DNBSEQ™ technology in metagenomics. Sum of 8 winners will be awarded and each award will cover registration, certification, a 2-week hands-on Metagenomic NGS and Bioinformatic course, and food during the workshop. Participants will have to cover own transport and accommodation. The application is free to enter and begins on the 1<sup>st</sup> June 2023, ending the 26<sup>th</sup> June 2023. Workshop dates are 24<sup>th</sup> July – 4<sup>th</sup> August. Winners will be notified via the email and by the telephone contact provided on the 30<sup>th</sup> June. Only one entry per person.

**For more information on MGI's sequencing technology please visit [here](#).**

Unless otherwise informed, StandardMPS and CoolMPS sequencing reagents, and sequencers for use with such reagents are not available in Germany, Spain, UK, Sweden, Italy, Czech Republic, Switzerland and Hong Kong (CoolMPS is available in Hong Kong).
