Information Update/Brief

Via email

Hello Coalition Members!

I hope you are having a wonderful summer! Please see the attachment for updates for July, in lieu of our regular July meeting.

Also, we are currently collecting information for SLCo Stormwater Coalition Annual Report.

1. Please take a few moments to complete the survey questions at the following link. Only one person from your city/entity needs to complete the survey.

forms.gle/AHovmkbocPFNmj18

2. Please check the individuals listed at the bottom of this email as the municipal/county/UTA representatives as coalition members for the intro section of the report. If you'd like any changes, please text updates to (801-574-0815) or [email](#). (If you text, please be sure to include the name of your city/entity). If we're missing someone, please include their contact information (email) as well, as I may not have it on the list.

3. **Please send along photos of your city events, banners/posters in your neighborhoods, your team at work, or any projects that you'd like to share.** You can text them to me 801-574-0815 or [email](#) works great!

4. Please also see the attached IDDE Annual Report sent to us by Tyler Rutner at the SLCo Health Dept. Tyler says he worked with Rob Larson to put it together and if any of the city stormwater representatives have questions regarding cases, you are welcome to reach out to him and he can assist or I can put you in contact with the correct person. He's at TRutner@saltlakecounty.gov

Please see additional updates below:

1. Mainstream Media update

If you would like to utilize any of the messaging that we used this year for the media campaigns, please check out the videos webpage on the stormwatercoalition.org website.

We'll be finalizing the messaging and production of the fall 2026/spring 2027 campaign in the next few weeks.

2. Website

- a. Check out the webpages- BMP specific to align with permit priorities. If you'd like, you could link the pages that address the pollutants of concern in your specific cities or neighborhoods.
 - i. E.coli stormwatercoalition.org/ecoli
 - ii. Pet Waste stormwatercoalition.org/petwaste
 - iii. Trash stormwatercoalition.org/trash
 - iv. Household Hazardous Waste stormwatercoalition.org/hhw
 - v. Yard Care stormwatercoalition.org/yardcare
 - vi. Nutrient Pollution stormwatercoalition.org/nutrient

- b. BMP's aligned with audiences
 - i. General Public BMP's stormwatercoalition.org/residents
 - ii. [Educators & Students](#)
 - iii. Construction [Developers & Contractors](#)
 - iv. [Institutions, Industrial, & Commercial Facilities](#)
 - v. [Land Use Planners and Stakeholders](#)
 - c. [Stormwater Communications webpage](#)
3. SLCo Stormwater Coalition Education for 2026-27
- a. We're in the process of hammering out details and scripting the multi-media components for the fall/winter presentations to 4 & 5th grade classrooms for this coming school year, and making adjustments to the toolkits for middle schoolers and for those elementary teachers who want to deliver the session on their own. We will do as many live presentations as possible again this coming school year. Kari will reach out to individual coalition members as we schedule them to let you know when we will be doing a presentation at a school in your city.
4. SLCo Watershed Symposium Call for Session Abstracts
- a. If you're interested in presenting at the 2026 SLCo Watershed Symposium, the call for session abstracts has been released. [CLICK HERE](#), to submit your information .

The next SLCo Stormwater Coalition meeting will be held **Wednesday, August 26, 2026** at 10:30 via Zoom
