

Tool Identification Assignment

To learn about common shop tools used to repair and maintenance equipment like a tractor, you will need to create a study tool to help learn the uses and what each tool looks like. Options: Kahoot, Quizlet, Gimkit, Blooket, Quizizz, Physical Flashcards, and other ideas approved by Ms. Swygert.

Regardless of your chosen method, you must have the following for each tool.

1. Name of Tool
2. Uses of Tool from the resource on Canvas (can only use this one - others will not be accepted!!)
3. Picture of the correct tool (double-check with the resource on Canvas)

List of Tools

1. Adjustable Wrench
2. Allen Wrench
3. Bottleneck jack
4. Box end wrench
5. Combination square
6. Combination wrench
7. Cordless drill
8. Deep socket
9. Diagonal cutting pliers
10. Electrical multimeter
11. Electric drill
12. Extension
13. Filter wrench
14. Floor jack
15. Grease Gun
16. Groove joint pliers
17. Hacksaw
18. Impact driver
19. Level
20. Line level
21. Longnose pliers
22. Machinist vise
23. Nut driver
24. Obstruction wrench
25. Open-end wrench
26. Philips screwdriver
27. Piston ring compressor
28. Ratcheting wrench
29. Regular socket
30. Reversible ratchet
31. Rubber mallet
32. Safety glasses
33. Safety goggles
34. Srench
35. Side cutting pliers
36. Single Pole Switch/Toggle Switch
37. Sledgehammer
38. Slip joint pliers
39. Slotted screwdriver
40. Speed square
41. Tape rule
42. Tire chuck
43. Tire gauge
44. Torx screwdriver
45. Triangular file
46. Universal socket
47. Universal joint
48. Vise grip pliers
49. Wire Strippers
50. Wrecking Bar
- 1.
