### 3.How do we use cookies and similar technologies

A cookie is a small piece of text sent to a browser by a website visited by a user. It helps browsers record information that users access, such as preferred language and other settings. In this way, users will have a more relaxed and practical access experience the next time they visit the same website. Cookies play a vital role. Without cookies, the user's Internet experience will be greatly reduced, and some website features or services may not even work properly. We use cookies to provide you with a complete web browsing service. We do not collect cookie information ourselves. Please note that the websites you visit may use cookies to store your preferences, settings, login status, etc. For example, when you first visit a webpage with a login function, you need to enter a user name and password to log in. After you log in, The website will record your login status. When you switch between different webpages under the website, you do not need to re-enter your username and password to browse the webpage content. Websites may use cookies to recommend advertisements. For example, a website uses cookies to record websites that you click on to prevent you from seeing duplicate advertisements. We provide the ability to disable and delete cookies. You can disable or delete cookies.

To make it easier for you to open web pages, we provide web page caching. We allow websites you visit to store some web page data, such as web page pictures and other information. When you next visit the site, the site will directly read the saved data for display, thereby speeding up the opening of the page. The cache will expire due to expiration or manual removal. We will not upload any cached content.

### 4.How we share, transfer and disclose your personal data

We will share with, transfer or disclose your personal data to third parties with your consent or your explicit instructions. In addition, in order to improve the quality of our services, we may also share your personal data with third parties or transfer or disclose them to third parties in the following situations.

#### 4.1. Related Products

We may share your personal data with our products to provide a more consistent experience and better service in our products. We guarantee that it will treat your personal data in accordance with the purposes and requirements shown in this policy. If your product wishes to use your personal data for purposes other than those set out in this policy, we will seek your consent again.

#### 4.2. Affiliates

We may share your personal data with our affiliates and guarantee that it will treat your personal data in accordance with the purposes and requirements shown in this policy. If an affiliate wishes to use your personal data for purposes other than those set out in this policy, we will seek your consent again.

#### 4.3. Third-Party Service Providers

We may cooperate with third-party service providers in specific areas to provide services for you. Third-party service providers may collect data when providing services, and they will ensure that they follow our instructions, follow the purposes and requirements set out in this

policy to process your personal data, and take appropriate confidentiality and security measures to ensure data security.

#### 4.4. Sharing for legal reasons

Without prejudice to the requirements of this policy, we may need to share or disclose your personal data in certain circumstances, such as compliance with laws and regulations, mandatory requirements of government directives, and to protect the legal rights of you, us, and third parties; Prevent or deal with fraud, security or technical issues.

#### 4.5. Changes to the company's organizational structure and status

If our organizational structure or the company's survival status has changed (such as a reorganization, merger or bankruptcy), your personal data may be transferred to the changed corporate entity or our affiliates ("Data Transferee"). The data transferee will continue to be bound by the requirements of this policy.

### 5.Data processing when using third-party services

We may provide you with a link to a third-party product or service in this product. For example, if you go to a link to another website, you can click on the link in this product to access a third-party product or service. At the same time, we may also embed third-party links in this product. You can click on the links in this product to access or use third-party products or services in this product interface. We remind you that when you access or use a third-party product or service through the above-mentioned means so that a third-party product or service obtains your personal data, such personal data will apply to the privacy policy of that third-party product or service.

In addition, we may use third-party interfaces to improve product functionality. For example, the search module will request search engine interfaces based on user-entered keywords to obtain search suggestions and keyword-related web content.

### 6.How we store and protect your personal data

#### 6.1. Personal Data Security

We are committed to safeguard your personal data. We use a variety of possible security technologies and procedures to protect your personal data from unauthorized access, use, modification, destruction, or disclosure. We have mainly adopted the following security measures:

- a) We store your personal data in a computer system located in a controlled location and take security measures such as encryption.
- b) We only allow TianYi game employees who have to process relevant data for the purpose of product operations to access personal data and require them to perform strict confidentiality obligations.
- c) We are constantly striving to ensure the security of your personal data, and we use full encryption to protect your information from unauthorized access, use, modification, destruction or disclosure during the transmission of data.
- d) We will be more careful in the transmission and storage of your specific types of personal data, and take technical security measures such as encryption to ensure data security.

In the event of personal data security incidents, we will promptly notify you in the form of push notifications or announcements in accordance with the requirements of laws and regulations. We will inform you of the basic conditions and possible impacts of the security incidents, the treatment measures we have taken or will take, and you can Advice on self-prevention and reduction of risks, remedial measures for you, etc. We will promptly

handle security risks such as system vulnerabilities, cyber attacks, virus attacks, and network intrusions.

## 6.2. Storage period of personal data

We will store your personal data for the necessary period of time for data collection and processing purposes. Beyond the above period, we will delete or anonymize personal data. Browsing history, bookmarks, web page data, cookies, download file information, and search history are all stored locally and are available throughout the application lifecycle. You can manually delete this data at any time.

The access records, application execution logs, and application debug logs of the cloud service are stored on the server for a short period of time, typically 7 days. If this period expires, we will delete or anonymize the data.

Application usage data is pseudo-persistently stored on the server for data analysis. You can access, edit or delete your data in the manner described in section

## 7. How to Access and Control Your Personal Data.

After you log off your account, for technical reasons, we may not be able to immediately delete your personal data, but we will delete it at the next system update, and we guarantee that we will not continue to process your personal account during your time to log off the account until we update the system.

### 7.1. Accessing, Modifying Your Personal Data

You can access and edit your personal data online through the freegame4fun User Information Center.

### 7.2. Change your consent

If you wish to change the scope of our consent for your personal data processing, you can choose on the freegame4fun User Information Center page. Please note that the various features of this product require some basic personal data to work properly. When you withdraw certain personal data processing consents, some of the product's business functions may not function properly.

Upon receiving your withdrawal agreement, we will no longer process your corresponding personal data.

### 7.3. Refused to receive personalized advertising

You can always choose whether to receive promotional emails, text messages, telephone calls and letters from us or third parties. You can also choose to no longer receive personalized advertisements by visiting the freegame4fun User Information Center.

When we receive your request to refuse to receive personalized advertising, we will no longer use your personal data for the above mentioned commercial promotion. However, based on our free services, you will still receive non-personalized ads. Your corresponding information will not be used to mark or identify you personally, but will only be used to calculate the frequency of advertisements, advertising reports, or to screen for fraud and dishonesty.

### 7.4. Delete Your Personal Data

You can ask us to delete your personal data when:

- a) Your personal data is no longer necessary for the purpose of collection or processing;
- b) You have withdrawn our consent to your personal data processing;
- c) Personal data is illegally processed;
- d) According to legal requirements of EU member states, we are obliged to delete your personal data.

For technical reasons, we may not be able to delete your personal data immediately. We will delete this data when the system is updated. After we receive your request to delete personal data until the system is updated, we will not do any processing of your collected personal data.

#### 7.5. In response to your request

Upon receipt of your request, we may verify your identity first and may ask you to provide the necessary information for authentication.

We will respond to your request and communicate with you in an appropriate manner 30 days after we receive your request. If necessary, we may extend the aforementioned period (up to a maximum of 30 days) and notify you of the reason for the extension of the period on the 30th day after receiving your request. If we have reason to believe that we do not need to take any action on your request, we will inform you of our decision and give you a corresponding explanation 30 days from the date of receipt of your request.

We will do our best to help you solve related problems. If you are dissatisfied with our response, you can file a complaint with the relevant regulatory authority or file a lawsuit with a jurisdictional jurisdiction.

#### 8. Treatment of minor data

This product is not intended for minors under the age of 16 (or the minimum age set by the domestic law of EU member states). For such minors, we will process their information only with the consent of the minor guardian, to the extent permitted by law.

We will use relevant technical means and do our utmost to verify whether the processing of minor information has obtained the consent of the guardian. If we find that we have collected personal data of minors without first obtaining the verifiable guardian's consent, we will try to delete the relevant data as soon as possible.

#### 9. Contact us

If you have any questions or suggestions about this policy, or you need to exercise your data management power to manage your privacy data, please feel free to contact us at:

tkgamebz@gmail.com

If you find any violation of this policy, please contact our DPO at: tkgamebz@gmail.com

#### 10. Privacy Policy Update

We reserve the right to make changes or modifications to this policy. If there are any updates to this policy, we will promptly prompt you to consult on the interface of this product and mark the updated part for your convenience. Please be sure to read and fully understand the updated privacy policy. If you continue to use this product, you will be deemed to have agreed to an updated version of this Privacy Policy. We will not reduce your rights under this Privacy Policy without your explicit consent.

#### 11. How Your Personal Data Circulates Globally

As we provide freegame4fun products and services worldwide, we may transfer your personal data to other jurisdictions outside your country of use, or may be subject to the needs of a global business. Visits from these jurisdictions. These jurisdictions include, but are not limited to, Singapore, the United States, and China.

Please note that we only return demographic information to China and we do not include information on individual user identities. At the same time, in order to provide you with better services, our third-party partners may transmit your data to other countries. For example, in

order to detect robots or cheating, we have purchased a Chinese supplier's traffic monitoring service. The merchant may return the user information to China in order to assist us in analyzing whether there is cheating in the user.

Personal data protection legislation in such jurisdiction might be different or even absent.

Under such circumstance, we will adopt various measures to ensure security of your personal data. For instance, we will ask you for your explicit consent before transmission of your personal data, or implement security measures such as encryption and pseudonymisation during data transmission; when your personal data is transferred to such jurisdictions, we will apply the same protection of your personal data in accordance with the Policy. We will endeavor to protect your personal data with the measures stipulated in Article 46 and Article 47 of the EU General Data Protection Regulation.
