1. Go to the tool bar in this document and click "insert"
  - a. Chose "Chart"
    - i. Choose "Column"
2. Click on the chart that appears. In the top right corner of the new chart, the "Link" button will appear. Choose the option called "Open Source." This will open the spreadsheet that links to the image. When you are done editing, be sure the changes are reflected on this document.
3. Team 1 -4 will appear on the X-axis. These need to be changed to "1820s" and "1830s" and "1840s" and "1850s" and "1860s" and "1870s" In other words there will not be four teams but sixteen decades. (See below)
4. Delete "Period 2."
5. Rename "Period 1" to "Number of Irish Immigrants"
6. Change "Points Scored" to "Irish Immigrants between 1820 and 1975" (This does take some doing. You can't just click on the title to change it.)
7. Input the data from the T-Chart below into the graph you are creating on Google Sheets.
8. Delete these directions as you complete them so that the only thing left on this page is the graph you created.
9. In the last step, change the color of graph from the default blue to any color besides blue! Bonus points if you can make the title of the graph a different color than the labels on the X-axis.
