

Hey <@01GHHJ54AZE62NT37WR2GYGB01> , please review my outreach DM scripts:

WOW, that's a great recipe, Kristi! High protein intake is my priority so this dish is perfect for me. Thank you for the recipe!

By the way, based on your content, I am sure that your program is unbelievably magical. And I personally think that more and more people need guidance from great coaches like you, so I found 2 things on your "Roadmap 5 " and "APPLY TO MY PROGRAM" landing pages that you can tweak to increase your conversion rate dramatically. Also, I have several suggestions on how to build up your email list to hundreds of people!

Would you like me to share it with you?

---

That's one of the best glow-ups I've seen so far 🔥🔥🔥! Natasha has done a hell of a work to look that good, but I know the real secret of her success... It's your guidance, Cheryl. Good job on helping her!

And actually, I would love to help you to get more hardworking clients like Natasha. So I have several suggestions on how to help you to build up your email list to hundreds of people and increase the conversion rate from your application form and your website.

Would you like me to share it with you?

---

Also, I put this comment under one of their posts and then share this post with the coach using one of the scripts above, Comment:

This transformation is fire 🔥🔥! Good job! By the way, you might want to check your DM, I think you've got something there.

After replying I record a Loom Video breaking down their current structure and saying that if they want to learn more, let's schedule a call.

What do you think about this outreach system? Also how many DMs can I send in Instagram before getting blocked?

Hey Thomas, I know that you are just starting out and probably don't want to invest in your business. But I'm not here to sell you anything, because that probably won't work out.

I acknowledge that you don't want to invest anything but 50\$ a month that you pay to My PT Hub. That's why I would love to help you out for absolutely free in exchange for a video testimonial, if you like it of course.

After that, we can stop right there, or continue to have a successful partnership. What do you think about it?
