Privacy Policy for DG Vocab

Effective Date: March 25, 2026

1. Introduction

Welcome to **DG Vocab**. We are committed to protecting your privacy. This Privacy Policy explains how our mobile application handles information when you use our services to create custom vocabularies and practice active recall.

2. Information We Collect

We believe in data minimization. We only collect the information necessary to provide the app's core features:

- **User-Generated Content:** Words, definitions, and phrases you manually enter into the app to build your vocabulary lists.
- **Device Information:** Basic technical information (OS version, device model) to ensure the app runs correctly.
- **Optional Backup Data:** If you choose to enable the Google Drive Sync feature, the app will access a specific folder in your Google Drive to store your vocabulary database. We do not access any other files in your Drive.

3. How We Use Your Information

- To provide the learning features.
- To facilitate **offline translation** and text recognition (processed locally on your device via Google ML Kit).
- To allow you to **backup and restore** your data across devices.

4. Children's Privacy (Users Aged 6+)

DG Vocab is designed for a general audience, including users aged 6 and older.

- **No Personal Identification:** We do not require users to create an account with a name, email, or phone number to use the app locally.

- **Parental Consent:** If a child uses the Google Drive Sync feature, this requires a Google Account, which should be managed by a parent or guardian via **Google Family Link**.
- **No Behavioral Tracking:** We do not track children's behavior for advertising purposes.

5. Data Storage and Security

- **Local Storage:** By default, all your vocabulary data is stored locally on your device in a secure database.
- **Cloud Storage:** If you enable sync, your data is encrypted during transit to your private Google Drive storage. We do not host your data on our own servers.
- **Third-Party Services:** We use Google Play Services and Google ML Kit. These services may collect some telemetry data according to Google’s Privacy Policy.

6. Your Rights

You have full control over your data:

- You can edit or delete any vocabulary entry at any time.
- You can disconnect Google Drive sync from the app settings.
- You can delete the app, which will remove all local data from your device.

7. Changes to This Policy

We may update this policy from time to time. We will notify you of any changes by updating the "Effective Date" at the top of this policy. We encourage users to check this link periodically to stay informed about how we are protecting your information.
