Payments:

Payments are done using **PayPal**. Once your commission is approved, I'll send you a DM asking for your email or I'll send you my PayPal link. **I do use Discord as my main way of communication.**

Payments are the **full price & upfront**. I'll begin working on your commission **AFTER** I received the payment. You'll have **3 days to pay me** after I approve your commission, otherwise your spot will go to someone else. There can always be things that come your way, so discuss them with me so we can get to an understanding.

Pricing:

All prices are in US Dollars. When you give your description of your commission and talk about what you want, I will tell you what the full price will be. Make sure it's a **clear description** using the pricing I have on my Commission sheet. Just ask when things aren't clear or if you don't understand something.

Refunds:

There's no refund unless I'm unable to complete the drawing. I reserve the right to cancel a commission for any reason. I will give you a full refund if that happens.

References and Commission description:

- Make sure you give me **good references of the character(s), poses, clothing, scenarios ect.! Full body references** of a character are always the best! **The more references, the better.**
- **Make the description of your commission clear.** What you want, which normal and/or NSFW addings, what kind of background ect.
- **Only 2 characters on 1 commission max.**
- For the "**Character Reference Sheet + information**": Make sure you get your information ready to go. It's your character, your responsibility to get their information right. If I'm not sure about something, I'll ask you to send me other or more references and/or information..
- You want to commission a drawing with **a character you do not own?** I will need **permission from the owner** or, in the case of **gifts, have some proof or evidence that they will not mind their character being drawn.**
- I have the right to **decline** your commission **for any reason & if it goes against the Term of Service.**

How does the process go?:

- I will upload a journal/status update, announcing the **amount of commission slots** that are open. I'll choose **randomly** on which commission I will be working on. *Please don't get upset/curse/yell at me if yours is taking longer. There's gonna be more commissions in the future.* Once I get to work on the commissions, entering commissions will be **temporarily closed**. After I'm done with the round of commissions of that entry, I'll **reopen commissions** again.

Working on the commission:

- When I receive the payment, I'll go get to work on your commission. Know that, **due to personal life** and **the kind of commission** you have, it might take longer to finish it. **So please have patience.**
- With the base sketch, you can still adjust things. This is for **free till a certain amount of changes**. I will always make sure and ask if the sketch is right and will only continue the process **after your approval**. Do know that there might be more people waiting for their commission as well. So for a smooth process, don't keep stalling or keep on changing over time.
- **After your approval and when I'm going to work on the lineart, it will cost \$5 for big changes.** For example, *to adjust the pose, change the background.* Small changes like a *changing hair color or other smaller changes*, are for free. This will always be discussed. If something from the **"Normal or NSFW additions"** is **added after** I receive the payment and I'm already working on your commission, you will have to pay me for the adding, **full price**. *Adding kicks/contractions, for example, will cost you \$5 extra on top of the full price you already paid me.* I will get back to work **after** you have paid me for the adjustments. If a certain part or detail **isn't** shown in **the references and/or commission description** and you find it missing in your drawing without talking to me about it, **the fault is on your part and you have to pay me for changing it, depending on the scale of the change.**
- I will keep you updated with the process of your commission, if you want too. Hence the reason why Discord is the main way of communication. Please show respect and understanding towards me, as I will have for you. I will **block/ban** you for improper behavior.
- I reserve the right to post any and all wips/finished products to my socials. I **request you to hold off on posting any stage of the commission** until I give you the permission. Tell me **beforehand if you want your drawing to**

be posted or not and tell me which platforms you use (and your username on them) so I can tag you in the post if I'm on the platform as well.

Finished commission:

Once I'm finished I'll send you a DM/message to let you know that your commission is finished.

- You can post your commissioned drawing on any socials **after** I give you permission to post it. **Do credit me.** If you refuse to credit me, **I'll report the post as stolen.**
- **You may not remove my signature(s)**
- I, the artist, retain ALL copyright on the commissioned piece. **You MAY NOT claim it, trace it, use it for profit, use it for hateful and devious things or modify it (unless it is a lineart to be colored).** The owner of the character drawn retains their copyright as well, but the actual artwork is mine. **No exceptions.** I will not hesitate to report unauthorized use of my art and put you on my blacklist.
- You are responsible for saving your commission. I try my best to keep all my drawings, but I cannot guarantee I will always have it saved or posted in my galleries.

And that about wraps it up! I hope the rules are clear for you. If there's any questions about anything, feel free to send me a DM/Note. I'm here to help!

Wishing you all the best of luck and hopefully we can get to work on your commission!
