Swaggaraptor's Terms of Service

You accept these Terms of Service by commissioning me. These terms are subject to change at any time. Any person found breaking these terms may have their commission canceled.

- You must be 18+ in order to commission me.
- All payments must be done through PayPal only. Do not send money through Friends & Family!
- Payments are flexible and will be discussed before work begins.
- Commissions are only being accepted through Discord (Swaggaraptor previously swaggaraptor#6969.)

-
- I have the right to deny any commissions I do not feel comfortable doing.
 - If you have a deadline for your commission, please request your commission at least 30 days in advance per unique piece.
 - You can expect the average commission to take up to a month to complete depending on complexity. I will let you know if it will be longer depending on the time of year (related to my job.) *Customers will be notified immediately if a major life event prevents me from accessing my art programs and tablet.*
 - Communication is important. I will provide several WIPs and updates to make sure you, the client and customer, are happy with the content as it is worked on. This includes WIPs for poses, colors, line art, etc.
 - You, the client and customer, have the right to ask for updates at *any point*.

-
- You can use, edit, and reupload your paid commission as long as credit is given. Each piece will include my watermark. You can ask to have the location and size changed reasonably.
 - You cannot claim my work as your own nor remove my watermark.
 - You cannot resell my work or use it commercially. The **ONLY** exception is if you decide to sell/auction your own character and include your commissioned art of that character in the sale. You must ensure that your commission from me still has a visible watermark.
 - I reserve the right to store, repost, and use my work for examples publically. If you wish for your product to *stay private*, you must inform me *as soon as possible*.
