

Workshop Information-

Join us for an exciting adventure into the world of indoor hydroponic growing systems! In this hands-on class, you'll learn how we can grow fresh, healthy produce in urban areas using a special type of farming called hydroponics. We'll explore the amazing technology behind indoor hydroponic farms, and even get to visit a real working farm. You'll discover how this sustainable and innovative method of farming is changing the way we think about food production and distribution. So come along and let's explore the future of farming together!

Number of Students-

20 Student maximum
