I am a passionate voice actor and artist, with several years of experience, looking to bring light and life into the world through the use of my voice. I have an excellent range, and will bring all of my skills to bear to make sure that any project I work on will be the best that it possibly can be. I am a strong team player with a desire to bring exceptional talent and entertainment with my voice. Contained below are links to some of my most recent projects, and ones that are publicly available, as well as links to commercial and character demo reels.

**Commercial Demo**
