Local Media

Here's a list of the major News Networks in Arizona - Would be great if CANN supporters would give them a call/email - only takes 5 minutes of our time and we ain't got nothing to lose.

-Let's face it, us pro-weed advocates sometimes find it hard to move 😊 Intra-state logistics would be great for the CANN project, I think the Developers should have talks with service providers that can handle this (MMJ Card/KYC/Medicare compliant). Interstate would be really great for the project, but don't think this is possible right now?

Cigna Home Delivery: 1-800-997-1654

-High-Net-Worth individuals love a bargain even more than the Average Joe and can be of enormous support (financial/affiliate/partnership/marketing). Mr D9 why not give Tim Burd a call, he was in the business for sometime and might be of great help. Don't have his contact details (can anyone here find out?)

-LA for many reasons would be a great place to campaign (next event perhaps?) These guy's might be interested and staff I hear are "down to earth", amiable folks <http://www.exhalemedcenter.com/> + excellent client base.]J Rockhound

Premine Info

<http://bitcointalk.org/index.php?topic=661885.msg8202281#msg8202281>

“approx. 21,882,000 - was paid out.” ”We did a hard fork and premind 1st block on X11 to do the buyback program of mined coins from old to new X11 algo, This was all paid to the miners manually as agreed. Noone wanted to lose their coins.”

~DeltaNine

- **Where is the full list of who got the 21 million premined coins?**
- **What proof is there that these people actually mined them when CANN was SCRYPT?**
- **Were there any leftover coins that were not claimed by CANN SCRYPT miners?**
 - **Logically not all were claimed, so what happened to the unclaimed coins?**
 - **How many unclaimed CANN exist?**
- **Is one of these the remaining of the premined CANN?**
