Why Stewardred Spaces Often Chooses Steam

Steam cleaning is often chosen where appropriate because it provides practical cleaning benefits while reducing reliance on multiple harsh chemical products.

Benefits of steam-focused cleaning may include:

- Helping loosen grease and buildup
- Reaching into cracks and crevices
- Breaking down sticky residue
- Reducing bacteria on many hard surfaces
- Using very little product
- Avoiding overpowering chemical fragrance
- Refreshing upholstery and vehicle interiors

Not all surfaces are suitable for steam cleaning. Stewardred Spaces always chooses the safest and most effective cleaning method for each space.

Booking & Pricing Policies

- A 2-hour minimum applies to most services
