

Figures of Speech: Similes & Metaphors and others

Directions:

For each page below, find the figure of speech listed. The side the term is on signifies which column the figure of speech is in on that page. Write the example of the term found in the area underneath the term. Find at least 1 for each term. There may be more—you can list those for bonus if you like, but go back & do that only if all the others are found first.
