PRIORITY STANDARDS

BSD7 Math Standards identify what students should know and be able to do by the end of the school year. All standards are used to guide instruction; however, priority standards guide teachers and focus student learning on critical concepts. The standards highlighted below (red, green, orange, blue) have been identified as priority standards in the Bozeman School District. Click the standards below to view a standard's "proficiency descriptors."

PROFICIENCY DESCRIPTORS

Proficiency Descriptors are used to assess a student's level of achievement on a standard. On a "scale" of 4-3-2-1, a score of "3" indicates mastery of the standard.
