2. Include comments left on your computer from the gallery walk.
3. **Reflection:** I loved to use photoshop. It is really fun. I chose the topic equality which is a very common problem faced by the people of some countries. I strongly believe that every person in the whole world have the right to be treated equally and respectfully. I chose the Lady gaga who strongly supports equality. If you talk about US then it is suffering on the basis of gender equality as there are very less female presidents elected by the US government.
