

Universal Laws of Nature

Universal Laws of Nature include:

1. Natural Cycles, Cause and Effect, The inevitability of change, Abundance, Infinity
2. Inter-dependence, Synergy, Creativity, Cooperation, Sustainability, Regeneration, Resilience, Flexibility, Transformation, Growth, Efficiency and Sufficiency
3. Nature's lessons, such as quantum transformations are nature's tradition; problems are evolutionary drivers; crises precede transformation; through synergy and greater cooperation, nature creates new whole systems out of separate parts, cooperating synergistic whole systems. (Barbara Marx Hubbard's [Our Story](#))
4. Natural Law
 - Our inherent, unalienable natural rights, among these are life, liberty, and the pursuit of happiness
 - The powers of the earth, namely "the separate and equal station" to which we are entitled pursuant to our specific endowment
 - A set of universal principles and rules that properly govern the moral conduct of living breathing spiritual beings, aka "the Laws of Nature" as referenced in the 1776 Declaration of Independence

5. When we live in harmony with nature, we enjoy clean and healthy air, water, soil, and food, affecting our health and well-being and that of the planet and all its inhabitants.
 - May we learn to live as Nature in her great and boundless mercy, in her tender, loving kindness, in her wisdom and her goodness, meant that we should live and labor.*
 - May we learn to keep our body strong and clean and pure and active, give it work in right proportion, give it air, and food, and water, fit to build its every member, fit to nourish every function.*
 - May we teach our mind and spirit pure and noble thoughts to harbor, drive out fear, and hate, and malice, cherish love and kindly motive.*
