Abstract

Abstract written in English containing the research objectives, methods / approaches and research results. Abstract written in one alenia, no more than 100 words. (Times New Roman 12, single spaced, and italicized).

Keywords: A maximum of 5 keywords separated by commas. [Times New Roman font 12 single spaced, and italic]

Introduction

The introduction includes the background to the issue or problem as well as the urgency and rationalization of activities (research or service). The purpose of the activity and the problems solving plan are presented in this section. A review of relevant literature and the development of hypotheses (if any) is included in this section. [Times New Roman, 12, normal].

Literature Review and Hypothesis Development

This section contains a literature review which is used as a support for the research concept. Literature review is not limited to theory, but also empirical evidence. The research hypothesis (if any) must be built from theoretical concepts and supported by empirical studies (previous research). [Times New Roman, 12, normal].

Research methods

The research method explains the design of activities, scope or objects, main materials and tools, places, data collection techniques, operational definitions of research variables, and analysis techniques. [Times New Roman, 12, normal].

Results and Discussion

This section presents research results. Research results can be supplemented by tables, graphs (figures), and / or charts. The discussion section describes the results of data processing, interpreting the findings logically, linking with relevant reference sources. Possible follow-up activities can also be conveyed in this section [Times New Roman, 12, normal].

Conclusion

Conclusions contain a brief summary of the results of research and discussion. Suggestions are included in this section [Times New Roman, 12, normal].

Reference

Manuscript writing and citations referred to in this manuscript are recommended using reference applications (reference managers) such as Mendeley, Zotero, Reffwork, End notes and other reference writing formats using the APA style [Times New Roman, 10, normal].

Examples of Table

Table 1

Statistics describing the variables used in the research model

Variable	Obs	Means	Std.dev.	Min	Max
Z_score	250	1.865961	2.282469	0.1234838	13.96394
Quick	250	1.713522	1.531516	0.1775028	9.768665
R&D	250	0.0985736	0.1094455	0	0.4705669
Loss	250	0.044	0.2055065	0	1
CSR	250	0.5173043	0.1954424	0.173913	0.9565217
