
VERSION 1.7.1 RELEASE NOTES

Deployment Date: Wednesday, December 15, 2021

Delivery Team: Sustainment

New Features

- Added **Alternative Mailing Address (US256)** option to new tenant user application registration.
 - **Previously**, new tenant users needed to call into the call center to add an alternative mailing address via internal agent *after* registration process was complete.
 - **Now**, new tenant users can add an alternative mailing address that does not match their property address.
- Added **Alternative Mailing Address (US257)** option for existing tenant application users.
 - **Previously**, existing tenant users needed to call into the call center to add an alternative mailing address via internal agent.
 - **Now**, existing tenant users can add an alternative mailing address that does not match their property address.

Bug Fixes

- Fixed **Bi-Weekly Automated Payment Invalid (BUG79)**
 - **Description:** Selecting bi-weekly payment option in the tenant portal application fired error code 0015 "Invalid Payment Date."
 - **Cause:** Application generated empty-field data for applicable, automatically calculated payment dates based on a bi-weekly schedule from initial payment date selected by tenant user.
 - **Fix:** Updated payment_date_calendar script to include bi-weekly possible dates.

Release Bugs

- N/A
