What sites are you currently blocking?

What is CIPA and what does it require us to block?

Do we have to block anything for adults?

The technology department should not be the Internet police. Our job is to:

The best filter in the world is:
Students will never learn how to have an internal filter if we block everything for them.
They will not learn how to use the web responsibly. Are we doing our job as educators
by not allowing them to learn this skill?

The playground analogy:

The stance of the department of Educational Technology on youtube in schools is:

Why?

The FCC has ruled that schools _____ have to block social media to be compliant with CIPA and stay eligble for erate funding.

Social media provides students with an audience.

Filtering at home - What does CIPA say?

Compfight

Have a discussion about what will work in your district. The goal of that discussion can be to have an written policy on your approach to filtering.

Prarie Filtering Guiding Principles for content filtering
