

KINDERGARTEN PERFORMING ARTS

What a fun group this class is! I have thoroughly enjoyed learning more about each kiddo, and watching their reactions to everything theatre. They are full of life and love, and continue to make me laugh every day!

This was a particularly unique kinder class, as they all desperately wanted to do a play! And while they were nervous, they all jumped right into the deep end, head first! We played a lot of drama games that helped me get to know each of them better. As they got more comfortable, and each kiddo was able to show me their individual personalities, I introduced a game called "Toy Store." We laughed until we cried as they created various characters of toys and tried to trick me (the toy store owner), when they came to life.

After a few rounds of this, I let the cat out of the bag that we would write our own script based on the Toy Store game! The students were delighted and had so much fun picking their characters, their personalities, their costumes, and writing their lines.

The performance was such a hit, that the school begged for them to do it again at the last Mack Morning Meeting before break! Each kiddo shined so bright and brought smiles to the souls of everyone that watched. I am honored to be their teacher, and look forward to more discovering and exploring in the world of performance!
